NON-GAAP FINANCIAL MEASURES

Earnings Available for Distribution

This press release contains Earnings Available for Distribution ("EAD"), a non-GAAP financial measure. Our presentation of EAD may not be comparable to similarly-titled measures of other companies, who may use different calculations. This non-GAAP measure should not be considered a substitute for, or superior to, the financial measures calculated in accordance with GAAP. Our GAAP financial results and the reconciliations from these results should be carefully evaluated.

We define EAD, a non-GAAP financial measure, as Net Income/(loss) available to common stockholders excluding (i) (a) unrealized gains/(losses) on loans, real estate securities, derivatives and other investments, inclusive of our investment in AG Arc, and (b) net realized gains/(losses) on the sale or termination of such instruments, (ii) any transaction related expenses incurred in connection with the acquisition, disposition, or securitization of our investments as well as transaction related expenses incurred in connection with the WMC acquisition, (iii) accrued deal-related performance fees payable to third party operators to the extent the primary component of the accrual relates to items that are excluded from EAD, such as unrealized and realized gains/(losses), (iv) realized and unrealized changes in the fair value of Arc Home's net mortgage servicing rights and the derivatives intended to offset changes in the fair value of those net mortgage servicing rights, (v) deferred taxes recognized at our taxable REIT subsidiaries, if any, and (vi) any bargain purchase gains recognized. Items (i) through (vi) above include any amount related to those items held in affiliated entities. Management considers the transaction related expenses referenced in (ii) above to be similar to realized losses incurred at the acquisition, disposition, or securitization of an asset and does not view them as being part of its core operations. Management views the exclusion described in (iv) above to be consistent with how it calculates EAD on the remainder of its portfolio. Management excludes all deferred taxes because it believes deferred taxes are not representative of current operations. EAD includes the net interest income and other income earned on our investments on a yield adjusted basis, including TBA dollar roll income/(loss) or any other investment activity that may earn or pay net interest or its economic equivalent.

A reconciliation of GAAP Net Income/(loss) available to common stockholders to EAD for the three months ended March 31, 2024 and 2023 is set forth below (in thousands, except per share data):

	Three Months Ended	
	March 31, 2024	March 31, 2023
Net Income/(loss) available to common stockholders	\$ 16,304	\$ 7,954
Add (Deduct):		
Net realized (gain)/loss	1,103	(100)
Net unrealized (gain)/loss	(10,014)	(8,717)
Transaction related expenses and deal related performance fees	1,023	1,800
Equity in (earnings)/loss from affiliates	(2,037)	(16)
EAD from equity method investments ^{(a), (b)}	(254)	(339)
Earnings available for distribution	\$ 6,125	\$ 582
Earnings available for distribution, per Diluted Share	\$ 0.21	\$ 0.03

(a) For the three months ended March 31, 2024 and 2023, \$0.9 million or \$0.03 per share and \$(0.6) million or \$(0.03) per share, respectively, of realized and unrealized changes in the fair value of Arc Home's net mortgage servicing rights and corresponding derivatives were excluded from EAD, net of deferred tax expense or benefit. Additionally, for the three months ended March 31, 2024 and 2023, \$44 thousand or \$0.00 per share and \$0.2 million or \$0.01 per share, respectively, of unrealized changes in the fair value of our investment in Arc Home were excluded from EAD.

(b) EAD recognized by AG Arc does not include our portion of gains recorded by Arc Home in connection with the sale of residential mortgage loans to us. For the three months ended March 31, 2024, we eliminated \$0.2 million or \$0.01 per share of intra-entity profits recognized by Arc Home, and also decreased the cost basis of the underlying loans we purchased by the same amount. For the three months ended March 31, 2023 we did not eliminate any intra-entity profits recognized by Arc Home as we did not purchase any loans from Arc during the quarter.

The components of EAD for the three months ended March 31, 2024 and 2023 are set forth below (in thousands, except per share data):

	Three Months Ended	
	March 31, 2024	March 31, 2023
Net Interest Income	\$ 18,212	\$ 13,217
Net interest component of interest rate swaps	1,900	1,020
Arc Home EAD	(993)	(1,733)
Less: Gains on loans sold to MITT ^(a)	(201)	—
Arc Home EAD to MITT	(1,194)	(1,733)
Management fee to affiliate	(1,741)	(2,075)
Non-investment related expenses	(3,114)	(2,820)
Investment related expenses	(3,352)	(2,441)
Dividends on preferred stock	(4,586)	(4,586)
Operating Expense	(12,793)	(11,922)
Earnings available for distribution	\$ 6,125	\$ 582
Earnings available for distribution, per Diluted Share	\$ 0.21	\$ 0.03

(a) EAD excludes our portion of gains recorded by Arc Home in connection with the sale of residential mortgage loans to us. We eliminated such gains recognized by Arc Home and also decreased the cost basis of the underlying loans we purchased by the same amount. Upon reducing our cost basis, unrealized gains are recorded within net income based on the fair value of the underlying loans at quarter end.

Economic Leverage Ratio

This press release contains Economic Leverage Ratio, a non-GAAP financial measure. Our presentation of Economic Leverage Ratio may not be comparable to similarly-titled measures of other companies, who may use different calculations. This non-GAAP measure should not be considered a substitute for, or superior to, the financial measures calculated in accordance with GAAP. Our GAAP financial results and the reconciliations from these results should be carefully evaluated.

We define GAAP leverage as the sum of (1) Securitized debt, at fair value, (2) GAAP Financing arrangements, net of any restricted cash posted on such financing arrangements, (3) Convertible senior unsecured notes, (4) Senior unsecured notes, and (5) the amount payable on purchases that have not yet settled less the financing remaining on sales that have not yet settled. We define Economic Leverage, a non-GAAP metric, as the sum of: (i) our GAAP leverage, exclusive of any fully non-recourse financing arrangements, (ii) financing arrangements held through affiliated entities, net of any restricted cash posted on such financing arrangements, exclusive of any financing utilized through AG Arc, any adjustment related to unsettled trades as described in (4) in the previous sentence, and any non-recourse financing arrangements and (iii) our net TBA position (at cost), if any.

The calculation in the table below divides GAAP leverage and Economic Leverage by our GAAP stockholders' equity to derive our leverage ratios. The following table presents a reconciliation of our Economic Leverage ratio to GAAP Leverage (\$ in thousands).

March 31, 2024	Leverage	Stockholders' Equity	Leverage Ratio
Securitized debt, at fair value	\$ 4,980,942		
GAAP Financing arrangements	734,001		
Convertible senior unsecured notes	78,530		
Senior unsecured notes	32,810		
Restricted cash posted on Financing arrangements	(2,109)		
GAAP Leverage	\$ 5,824,174	\$ 539,565	10.8x
Financing arrangements through affiliated entities	3,583		
Non-recourse financing arrangements ^(a)	(5,040,618)		
Net TBA (receivable)/payable adjustment	(32,552)		
Economic Leverage	\$ 754,587	\$ 539,565	1.4x

(a) Non-recourse financing arrangements include securitized debt and other non-recourse financing arrangements.

Footnotes

(1) Book value is calculated using stockholders' equity less net proceeds of our cumulative redeemable preferred stock (\$220.5 million) as the numerator. Adjusted book value is calculated using stockholders' equity less the liquidation preference of our cumulative redeemable preferred stock (\$228.0 million) as the numerator.

(2) The economic return on equity represents the change in adjusted book value per share during the period, plus the common dividends per share declared over the period, divided by adjusted book value per share from the prior period.

(3) Diluted per share figures are calculated using diluted weighted average outstanding shares in accordance with GAAP.

(4) Our Investment Portfolio consists of Residential Investments, Agency RMBS, and WMC Legacy Commercial Investments, all of which are held at fair value. Our financing is inclusive of Securitized Debt, which is held at fair value, Financing Arrangements, Convertible Senior Unsecured Notes, and Senior Unsecured Notes. Throughout this press release where we disclose our Investment Portfolio and the related financing, we have presented this information inclusive of (i) securities owned through investments in affiliates that are accounted for under GAAP using the equity method and, where applicable, (ii) long positions in TBAs, which are accounted for as derivatives under GAAP, but exclusive of our Convertible Senior Unsecured Notes and Senior Unsecured Notes. This presentation excludes investments through AG Arc LLC unless otherwise noted.

(5) We invest in Arc Home LLC, a licensed mortgage originator, through AG Arc LLC, one of our equity method investees. Our investment in AG Arc LLC is \$33.2 million as of March 31, 2024, representing a 44.6% ownership interest.

(6) Net interest margin is calculated by subtracting the weighted average cost of funds on our financing from the weighted average yield for our Investment Portfolio, which excludes cash held.

(7) The yield on our investments represents an effective interest rate, which utilizes all estimates of future cash flows and adjusts for actual prepayment and cash flow activity as of quarter end. Our calculation excludes cash held by the Company and excludes any net TBA position. The calculation of weighted average yield is weighted based on fair value.

(8) The cost of funds at quarter end is calculated as the sum of (i) the weighted average funding costs on recourse financing outstanding at quarter end, (ii) the weighted average funding costs on non-recourse financing outstanding at quarter end, and (iii) the weighted average of the net pay or receive rate on our interest rate swaps outstanding at quarter end. The cost of funds at quarter end are weighted by the outstanding financing at quarter end, including any non-recourse financing.
