AG Mortgage Investment Trust Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)
September 30, 2023

1. Organization

AG Mortgage Investment Trust, Inc. (the "Company") is a residential mortgage REIT with a focus on investing in a diversified risk-adjusted portfolio of residential mortgage-related assets in the U.S. mortgage market. The Company's investment activities primarily include acquiring and securitizing newly-originated residential mortgage loans within the non-agency segment of the housing market. The Company obtains its assets through Arc Home, LLC ("Arc Home"), a residential mortgage loan originator in which the Company owns an approximate 44.6% interest, and through other third-party origination partners.

The Company's assets, excluding its ownership in Arc Home, include Residential Investments and Agency RMBS. Currently, its Residential Investments primarily consist of newly originated Non-Agency Loans and Agency-Eligible Loans. The Company may invest in other types of residential mortgage loans and other mortgage related assets. The Company also invests in Residential Investments through its unconsolidated ownership interests in affiliates which are included in the "Investments in debt and equity of affiliates" line item on its consolidated balance sheets.

The Company's asset classes are primarily comprised of the following:

Asset Class	Description
Residential Investments	
Non-Agency Loans ⁽¹⁾	• Non-Agency Loans are loans that do not conform to the underwriting guidelines of a government-sponsored enterprise ("GSE"). Non-Agency Loans consist of Qualified mortgage loans ("QM Loans") and Non-Qualified mortgage loans ("Non-QM Loans"). QM Loans are residential mortgage loans that comply with the Ability-To-Repay rules and related guidelines of the Consumer Finance Protection Bureau.
Agency-Eligible Loans ⁽¹⁾	• Agency-Eligible Loans are loans that are underwritten in accordance with GSE guidelines and are primarily secured by investment properties, but are not guaranteed by a GSE. Although these loans are underwritten in accordance with GSE guidelines and can be delivered to Fannie Mae and Freddie Mac, the Company includes these loans within its Non-Agency securitizations.
Re- and Non-Performing Loans ⁽¹⁾	• Performing, re-performing, and non-performing loans are residential mortgage loans collateralized by a first lien mortgaged property.
Non-Agency Residential Mortgage-Backed Securities ("RMBS") ⁽²⁾	• Non-Agency RMBS represent fixed- and floating-rate RMBS issued by entities other than U.S. GSEs or agencies of the U.S. government. The mortgage loan collateral consists of either Non-Agency Loans or Agency-Eligible Loans.
Agency RMBS⁽²⁾	• Agency RMBS represent interests in pools of residential mortgage loans guaranteed by a GSE such as Fannie Mae or Freddie Mac, or an agency of the U.S. Government such as Ginnie Mae.

(1) These investments are included in the "Securitized residential mortgage loans, at fair value," "Residential mortgage loans, at fair value," and "Residential mortgage loans held for sale, at fair value" line items on the consolidated balance sheets.

(2) These investments are included in the "Real estate securities, at fair value" line item on the consolidated balance sheets.

The Company conducts its business through one reportable segment, Loans and Securities, which reflects how the Company manages its business and analyzes and reports its results of operations.

The Company was incorporated in the state of Maryland on March 1, 2011 and commenced operations in July 2011. The Company conducts its operations to qualify and be taxed as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Code"). The Company is externally managed by AG REIT Management, LLC, a Delaware limited liability company (the "Manager"), a wholly-owned subsidiary of Angelo, Gordon & Co., L.P. ("Angelo Gordon"), a diversified credit and real estate investing platform within TPG Inc. ("TPG"). TPG (Nasdaq: TPG) is a leading global alternative asset management firm. The Manager has delegated to Angelo Gordon the overall responsibility of its day-to-day duties and obligations arising under the management agreement.

AG Mortgage Investment Trust Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)
September 30, 2023

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Proposed Acquisition of Western Asset Mortgage Capital Corporation

On August 8, 2023, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Western Asset Mortgage Capital Corporation, a Delaware corporation ("WMC"), AGMIT Merger Sub, LLC, a Delaware limited liability company and wholly owned subsidiary of the Company ("Merger Sub"), and, solely for the purposes set forth in the Merger Agreement, the Manager. Pursuant to, and subject to the terms and conditions set forth in the Merger Agreement, WMC will merge with and into Merger Sub, with Merger Sub surviving (the "Merger").

On November 7, 2023, the Company's stockholders approved the issuance of the Company's common stock in connection with the Merger with WMC at a special stockholders meeting. No further Company stockholder approval is required for the Merger. On November 7, 2023, WMC announced it adjourned its special stockholders meeting relating to the Merger until December 5, 2023, at 9:00 a.m., Pacific Time, online in a virtual-only meeting format, due to a lack of quorum and to allow further solicitation of proxies from WMC common stockholders for the approval of the Merger at such special stockholders meeting. The Merger is expected to close in the fourth quarter of 2023, subject to the satisfaction of certain customary conditions, including approval of WMC's common stockholders.

Under the terms of the Merger Agreement, at the effective time of the Merger (the "Effective Time"), each outstanding share of WMC common stock will be converted into the right to receive the following (the "Per Share Merger Consideration"): (i) 1.498 shares, or approximately 9.2 million shares in aggregate, of the Company's common stock; and (ii) the per share portion of a cash payment from the Manager equal to the lesser of \$7.0 million or approximately 9.9% of the aggregate Per Share Merger Consideration. Cash will be paid in lieu of any fractional shares of the Company's common stock that would otherwise have been received as a result of the Merger.

In addition, on August 8, 2023, the Company and the Manager entered into an amendment (the "MITT Management Agreement Amendment") to the existing management agreement, pursuant to which (i) the base management fee will be reduced by \$0.6 million for the first four quarters (i.e., resulting in an aggregate \$2.4 million waiver of base management fees) following the Effective Time, beginning with the fiscal quarter in which the Effective Time occurs, and (ii) the Manager will waive its right to seek reimbursement from the Company for any expenses otherwise reimbursable by the Company under the management agreement in an amount equal to the excess, if any, of \$7.0 million over the aggregate cash portion of the Per Share Merger Consideration paid by the Manager to the holders of WMC common stock in the Merger. The MITT Management Agreement Amendment will become effective automatically upon the closing of the Merger, and will have no force and effect if the Merger does not close.

Further, in the Merger Agreement, the Company has agreed to take all necessary corporate action so that upon and after the Effective Time, the size of the Company's Board of Directors will be increased by two members, and M. Christian Mitchell and Lisa G. Quateman (the "WMC Director Designees") will be appointed to the Company's Board of Directors. The Company has further agreed to nominate the WMC Director Designees to the Company's Board of Directors at the next annual meeting following the Effective Time.

Concurrently with the execution of the Merger Agreement, WMC terminated its merger agreement (the "TPT Merger Agreement") with Terra Property Trust, Inc. ("TPT"). In connection with such termination, the Company, on behalf of WMC, paid to TPT a termination fee of \$3.0 million as required by the TPT Merger Agreement (the "TPT Termination Fee").

2. Summary of significant accounting policies

Consolidation and basis of presentation

The accompanying unaudited consolidated financial statements and related notes have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial reporting and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. For the three months ended September 30, 2022, the Company reclassified \$2.5 million and \$1.6 million of other operating expenses into the "Non-investment related expenses" and "Investment related expenses" line items on the consolidated statement of operations, respectively. For the nine months ended September 30, 2022, the Company reclassified \$7.7 million and \$3.9 million of other operating expenses into the "Non-investment related expenses" and "Investment related expenses" line items on the consolidated statement of operations, respectively. Furthermore, for the three and nine months ended September 30, 2022, the Company reclassified \$1.0 million and \$3.0 million of servicing fees into the "Investment related expenses" line item on the consolidated statement of operations, respectively. These expenses were reclassified to conform to the current year presentation of expenses. In the opinion of management, all adjustments considered necessary for a fair statement of the Company's financial position, results of operations, and cash flows have been included for the interim period and are of a normal and recurring nature. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year.

Significant accounting policies

There have been no significant changes to the Company's accounting policies included in Note 2 to the consolidated financial statements of the Company's Form 10-K for the year ended December 31, 2022. These unaudited consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes for the year ended December 31, 2022 included in the Company's Form 10-K.

Use of estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results may differ from those estimates.

Investment consolidation

An entity is a variable interest entity ("VIE") if the equity investors (i) do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support, (ii) are unable to direct the entity's activities or (iii) are not exposed to the entity's losses or entitled to its residual returns. VIEs within the scope of Accounting Standards Codification ("ASC") 810-10, "Consolidation" are required to be consolidated by their primary beneficiary. The primary beneficiary of a VIE is determined to be the party that has both the power to direct the activities of a VIE that most significantly impact the VIE's economic performance and the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. This determination can sometimes involve complex and subjective analyses. Further, ASC 810-10 also requires ongoing assessments of whether an enterprise is the primary beneficiary of a VIE. In accordance with ASC 810-10, all transferees, including variable interest entities, must be evaluated for consolidation. If the Company determines that consolidation is not required, it will then assess whether the transfer of the underlying assets would qualify as a sale, should be accounted for as secured financings under GAAP, or should be accounted for as an equity method investment, depending on the circumstances.

A Special Purpose Entity ("SPE") is an entity designed to fulfill a specific limited need of the company that organized it. SPEs are often used to facilitate transactions that involve securitizing financial assets or resecuritizing previously securitized financial assets. The objective of such transactions may include obtaining non-recourse financing, obtaining liquidity or refinancing the underlying securitized financial assets on improved terms. Securitization involves transferring assets to an SPE to convert all or a portion of those assets into cash before they would have been realized in the normal course of business through the SPE's issuance of debt or equity instruments. Investors in an SPE usually have recourse only to the assets in the SPE and depending on the overall structure of the transaction, may benefit from various forms of credit enhancement, such as over-collateralization in the form of excess assets in the SPE, priority with respect to receipt of cash flows relative to holders of other debt or equity instruments issued by the SPE, or a line of credit or other form of liquidity agreement that is designed with the objective of

ensuring that investors receive principal and/or interest cash flow on the investment in accordance with the terms of their investment agreement.

The Company enters into securitization transactions collateralized by its Non-Agency Loans/Agency-Eligible Loans and re- and non-performing loans (the trusts in which these loans are deposited are referred to as "Non-Agency VIEs" and "RPL/NPL VIEs", respectively), which may result in the Company consolidating the respective VIEs that are created to facilitate these securitizations. Based on the evaluations of each VIE, the Company may conclude that the VIEs should be consolidated and, as a result, transferred assets of these VIEs would be determined to be secured borrowings. Upon consolidation, the Company elected the fair value option pursuant to ASC 825 for the assets and liabilities of the Non-Agency VIEs and RPL/NPL VIEs. Electing the fair value option allows the Company to record changes in fair value in the consolidated statement of operations, which, in management's view, more appropriately reflects the results of operations for a particular reporting period as all activities will be recorded in a similar manner. The Company applied the guidance under ASC 810-10 (Measuring the Financial Assets and the Financial Liabilities of a Consolidated Collateralized Financing Entity) whereby the Company determines whether the fair value of the assets or liabilities of the Non-Agency VIEs and RPL/NPL VIEs are more observable as a basis for measuring the less observable financial instruments. The Company has determined that the fair value of the liabilities of the Non-Agency VIEs and RPL/NPL VIEs are more observable since the prices for these liabilities are more easily determined as similar instruments trade more frequently on a relative basis than the individual assets of the VIEs. See Note 3 for more detail regarding the Non-Agency VIEs and RPL/NPL VIEs and Note 5 for more detail related to the Company's determination of fair value for the assets and liabilities included within these VIEs.

Recent accounting pronouncements

In March 2020, FASB issued ASU 2020-04, "Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting." This ASU provides temporary optional guidance intended to ease the burden of reference rate reform on financial reporting and may be elected over time as reference rate reform activities occur. This ASU is effective as of March 12, 2020 and was amended by ASU 2022-06 to sunset on December 31, 2024. The ASU applies to all entities that have contracts, hedging relationships and other transactions that reference LIBOR and certain other reference rates that are expected to be discontinued. However, it cannot be applied to contract modifications that occur after December 31, 2024. With certain exceptions, this ASU also cannot be applied to hedging relationships entered into or evaluated after that date. The guidance provides optional expedients and exceptions for applying existing guidance to contract modifications, hedging relationships and other transactions that are expected to be affected by reference rate reform and meet certain scope guidance.

The Company has transitioned from LIBOR to an alternative benchmark. The adoption of ASU 2020-04 and the LIBOR transition did not have a material impact on the consolidated financial statements. The Company's primary exposure to LIBOR has historically included its financing arrangements and derivative contracts. In addition, the Company's Series C Preferred Stock is set to transition to a floating rate in September of 2024. At the time of transition, the Company no longer had derivative contracts indexed to LIBOR and all LIBOR-based financing arrangements transitioned to alternative benchmark rates. The Company does not currently intend to amend the Series C Preferred Stock to change the existing LIBOR cessation fallback language.

- (1) Equity residual investments with a zero coupon rate are excluded from this calculation.
- (2) GCAT Non-Agency RMBS are securities issued under Gold Creek Asset Trust ("GCAT"), which is the Angelo Gordon securitization shelf under which the Company or private funds under the management of Angelo Gordon securitize loans. Refer to the "Unconsolidated variable interest entities" section below for additional details on these securities.
- (3) Includes Non-Agency Securities and Non-Agency RMBS Interest Only securities collateralized by non-QM loans and agency-eligible loans.
- (4) Interest Only have no principal balances and bear interest based on a notional balance. The notional balance is used solely to determine interest distributions on the interest only classes of securities. As of September 30, 2023, the notional balances for the GCAT Non-Agency RMBS Interest Only and Agency RMBS Interest Only line items were \$98.9 million and \$79.9 million, respectively. As of December 31, 2022, the notional balances for the GCAT Non-Agency RMBS Interest Only and Agency RMBS Interest Only line items were \$108.5 million and \$127.4 million, respectively.

Unconsolidated variable interest entities

The Company's Non-Agency RMBS includes certain securities retained from a rated Non-QM Loan securitization the Company participated in alongside a private fund under the management of Angelo Gordon and issued under the GCAT shelf. Upon evaluating its investment in the VIE, the Company determined it was not the primary beneficiary and, as a result, did not consolidate the securitization trust. The Company has a 40.9% interest in the retained subordinate tranches which represents its continuing involvement in the securitization trust.

The following table summarizes the Company's investment in unconsolidated VIEs as of September 30, 2023 and December 31, 2022 (in thousands).

	September 30, 2023		December 31, 2022

The notional balance is used solely to determine interest distributions on the interest only classes of securities. As of September 30, 2023 and December 31, 2022, the notional balances for the GCAT Non-Agency RMBS Interest Only line item were \$98.9 million and \$108.5 million, respectively.
- (2) Maximum loss exposure from the Company's involvement with unconsolidated VIEs pertains to the fair value of the securities retained from these VIEs. The Company has no obligation to provide any other explicit or implicit support to the securitization trust.
- (3) As of September 30, 2023 and December 31, 2022, the Company held securities exposed to the first loss of the securitization with a fair value of \$3.6 million and \$4.1 million, respectively.

September 30, 2023

The following table summarizes information regarding the residential mortgage loans transferred to the Company's unconsolidated VIEs as of September 30, 2023 and December 31, 2022 (\$ in thousands).

Assets transferred to unconsolidated VIEs:	September 30, 2023	December 31, 2022
Total unpaid principal balance of loans outstanding (1)	\$ 120,858	\$ 132,509
Weighted average coupon on loans outstanding	5.55 %	5.62 %
Percent of unpaid principal balance greater than 90 days delinquent (2)	3.12 %	1.32 %

(1) The Company contributed approximately 40.9% of the unpaid principal balance into the securitization trust.

(2) As of September 30, 2023, 1.67% of loans were 90+ days delinquent and 1.45% of loans were in process of foreclosure. As of December 31, 2022, 1.32% of loans were 90+ days delinquent and no loans were in process of foreclosure.

5. Fair value measurements

The fair value of the Company's financial instruments is determined in accordance with the provisions of ASC 820, "Fair Value Measurements and Disclosures." When possible, the Company determines fair value using third-party data sources. ASC 820 establishes a hierarchy that prioritizes the inputs to valuation techniques. Level 1 inputs are observable inputs that reflect quoted prices for identical assets or liabilities in active markets. Level 2 inputs are observable inputs other than quoted prices and may include quoted prices for similar assets and liabilities in active markets. Level 3 inputs are significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used and reflect the Company's assumptions about the factors that market participants would use in pricing an asset or liability, and would be based on the best information available. In certain cases, inputs used to measure fair value fall into different levels of the fair value hierarchy. In such cases, the level at which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement.

- (1) As of September 30, 2023, the Company applied a reduction in fair value of \$10.7 million to its interest rate swap assets related to variation margin with a corresponding increase in restricted cash. As of December 31, 2022, the Company applied a reduction in fair value of \$17.3 million to its interest rate swap assets related to variation margin with a corresponding increase in restricted cash, net of collateral posted by the Company's derivative counterparties. Derivative assets and liabilities are included in the "Other assets" and "Other liabilities" line items on the consolidated balance sheets, respectively. Refer to Note 7 for more information on the Company's derivatives.
- (2) The Company classifies highly liquid investments with original maturities of three months or less from the date of purchase as cash equivalents. Cash equivalents may include cash invested in money market funds and are carried at cost, which approximates fair value.
- (3) The table above includes the Company's investment in AG Arc, which is included in its "Investments in debt and equity of affiliates" line item on the consolidated balance sheets, as the Company has chosen to elect the fair value option with respect to its investment pursuant to ASC 825.
- (4) Includes Residential mortgage loans held for sale as of December 31, 2022.

AG Mortgage Investment Trust Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)
September 30, 2023

The valuation of the Company's residential mortgage loans, securitized debt relating to the Non-Agency VIEs and RPL/NPL VIEs, certain securities, and forward purchase commitments is determined by the Manager using third-party pricing services where available, valuation analyses from third-party pricing service providers, or model-based pricing. Third-party pricing service providers conduct independent valuation analyses based on a review of source documents, available market data, and comparable investments. The analyses provided by valuation service providers are reviewed and considered by the Manager. The evaluation considers the underlying characteristics of each loan, which are observable inputs, including: coupon, maturity date, loan age, reset date, collateral type, periodic and life cap, geography, and prepayment speeds. The Company also considers loan servicing data, as available, forward interest rates, general economic conditions, home price index forecasts, and valuations of the underlying properties. The variables considered most significant to the determination of the fair value of the Company's residential mortgage loans, securitized debt, and forward purchase commitments include market-implied discount rates, projections of default rates, delinquency rates, prepayment rates, loss severity, recovery rates, reperformance rates, timeline to liquidation, and, for forward purchase commitments, pull-through rates. The Company and third-party pricing service providers use loan level data and macro-economic inputs to generate loss adjusted cash flows and other information in determining the fair value. Because of the inherent uncertainty of such valuation, the fair value established for mortgage loans, securitized debt, and forward purchase commitments held by the Company may differ from the fair value that would have been established if a ready market existed for these mortgage loans.

Fair values for the Company's securities and derivatives may be based upon prices obtained from third-party pricing services or broker quotations. The valuation methodology of the Company's third-party pricing services incorporates commonly used market pricing methods, including a spread measurement to various indices, which are observable inputs. The evaluation also considers the underlying characteristics of each investment, which are also observable inputs, including: coupon, maturity date, loan age, reset date, collateral type, periodic and life cap, geography, and prepayment speeds. The Company collects and considers current market intelligence on all major markets, including benchmark security evaluations and bid-lists from various sources, when available. As part of the Company's risk management process, the Company reviews and analyzes all prices obtained by comparing prices to recently completed transactions involving the same or similar investments on or near the reporting date. If, in the opinion of the Manager, one or more prices reported to the Company are not reliable or unavailable, the Manager reviews the fair value based on characteristics of the investment it receives from the issuer and available market information.

The Company's investment in Arc Home is evaluated on a periodic basis using a market approach. In applying the market approach, fair value is determined by multiplying Arc Home's book value by a relevant valuation multiple observed based on a range of comparable public entities or transactions, adjusted by management as appropriate for differences between the investment and the referenced comparables. The evaluation also considers the underlying financial performance of Arc Home, general economic conditions, and relevant trends within the mortgage banking industry.

Changes in the market environment and other events that may occur over the life of these investments may cause the gains or losses ultimately realized to be different than the valuations currently estimated. The significant unobservable inputs used in the fair value measurement of the Company's loans and securities are yields, prepayment rates, probability of default, and loss severity in the event of default. Significant increases (decreases) in any of those inputs in isolation would result in a significantly lower (higher) fair value measurement. Generally, a change in the assumption used for the probability of default is accompanied by a directionally similar change in the assumption used for the loss severity and a directionally opposite change in the assumption used for prepayment rates. The significant unobservable input used in the fair value measurement of the Company's investment in Arc Home is the book value multiple. Significant increases (decreases) in the multiple applied would result in a significantly higher (lower) fair value measurement.

The Company did not have any transfers of assets or liabilities between Levels 1 and 2 of the fair value hierarchy during the three and nine months ended September 30, 2023 and 2022.

The Company did not have any transfers between the Levels 2 and 3 of the fair value hierarchy during the three and nine months ended September 30, 2023 and 2022. Transfers into the Level 3 category of the fair value hierarchy occur due to instruments exhibiting indications of reduced levels of market transparency. Transfers out of the Level 3 category of the fair value hierarchy occur due to instruments exhibiting indications of increased levels of market transparency. Indications of increases or decreases in levels of market transparency include a change in observable transactions or executable quotes involving these instruments or similar instruments. Changes in these indications could impact price transparency, and thereby cause a change in level designations in future periods.

Financial Covenants

The Company's financing arrangements generally include customary representations, warranties, and covenants, but may also contain more restrictive supplemental terms and conditions. Although specific to each financing arrangement, typical supplemental terms include requirements of minimum equity and liquidity, leverage ratios, and performance triggers. In addition, some of the financing arrangements contain cross default features, whereby default under an agreement with one lender simultaneously causes default under agreements with other lenders. To the extent that the Company fails to comply with the covenants contained in these financing arrangements or is otherwise found to be in default under the terms of such agreements, the counterparty has the right to accelerate amounts due under the associated agreement. Financings pursuant to financing arrangements are generally recourse to the Company. As of September 30, 2023, the Company is in compliance with all of its financial covenants.

Derivative and other instruments eligible for offset are presented gross on the consolidated balance sheets as of September 30, 2023 and December 31, 2022, if applicable. The Company has not offset or netted any derivatives or other instruments with any financial instruments or cash collateral posted or received.

The Company must post cash or securities as collateral on its derivative instruments when their fair value declines. This typically occurs when prevailing market rates change adversely, with the severity of the change also dependent on the term of the derivatives involved. The posting of collateral is generally bilateral, meaning that if the fair value of the Company's derivatives increases, its counterparty must post collateral. As of September 30, 2023, the Company's restricted cash balance included \$11.1 million of collateral related to certain derivatives, of which \$0.4 million represents cash collateral posted by the Company and \$10.7 million represents amounts related to variation margin. As of December 31, 2022, the Company's restricted cash balance included \$9.6 million of collateral related to certain derivatives, of which \$1.3 million represents cash collateral posted by the Company and \$8.3 million represents amounts related to variation margin.

9. Income taxes

The Company conducts its operations to qualify and be taxed as a REIT. As a REIT, the Company is not subject to federal income tax to the extent that it makes qualifying distributions to its stockholders, and provided it satisfies on a continuing basis, through actual investment and operating results, the REIT requirements including certain asset, income, distribution, and stock ownership tests. The state and local tax jurisdictions for which the Company is subject to tax-filing obligations recognize the Company's status as a REIT, and therefore, the Company generally does not pay income tax in such jurisdictions. The Company may, however, be subject to certain minimum state and local tax filing fees as well as certain excise, franchise, or business taxes.

Notes to Consolidated Financial Statements (Unaudited)
September 30, 2023

Excise tax represents a non-deductible 4% tax on the required amount of the Company's ordinary income and net capital gains not distributed during the year. The expense is calculated in accordance with applicable tax regulations. For the three and nine months ended September 30, 2023 and 2022, the Company did not record any excise tax.

Taxable REIT Subsidiaries

The Company elected to treat certain domestic subsidiaries as taxable REIT subsidiaries ("TRSs"). The Company's financial results are generally not expected to reflect provisions for current or deferred income taxes, except for any activities conducted through one or more TRSs that are subject to corporate income taxation. Currently, the Company has wholly owned domestic TRSs that are taxable as corporations and subject to U.S. federal, state, and local income tax on net income at the applicable corporate rates. The federal statutory rate for the three and nine months ended September 30, 2023 and 2022 was 21%. The Company's effective tax rate differs from its combined U.S. federal, state, and local corporate statutory tax rate primarily due to income earned at the REIT, which is not subject to tax, due to the deduction for qualifying distributions made by the Company, and any change in the valuation allowance as disclosed in further detail below. The tax expense attributable to its TRS is recorded in the "Non-investment related expenses" line item on the consolidated statement of operations. The below table details the tax expense attributable to the TRS for the three and nine months ended September 30, 2023 and 2022 (in thousands).

	Three Months Ended		Nine Months Ended	
	September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022
Income tax expense	\$ 14	\$ 164	\$ 239	\$ 179

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax reporting purposes at the TRS level. As of September 30, 2023 and December 31, 2022, the Company recorded a deferred tax asset of approximately \$30.4 million and \$30.2 million, respectively, relating to net operating loss carryforwards, capital loss carryforwards, and basis differences of certain investments held within TRSs. In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during periods in which temporary differences become deductible. The Company concluded it is more likely than not the deferred tax asset will not be realized and established a full valuation allowance as of September 30, 2023 and December 31, 2022.

Uncertain Income Tax Positions

Based on its analysis of any potential uncertain income tax positions, the Company concluded it did not have any uncertain tax positions that meet the recognition or measurement criteria of ASC 740 as of September 30, 2023 and December 31, 2022. The Company's federal income tax returns for the last three tax years are open to examination by the Internal Revenue Service. There are no ongoing U.S. federal, state or local tax examinations related to the Company. In the event that the Company incurs income tax related interest and penalties, its policy is to classify them as a component of provision for income taxes.

Manager

The Company has entered into a management agreement with the Manager, which provided for an initial term and will be deemed renewed automatically each year for an additional one-year period, subject to certain termination rights. The Company is externally managed and advised by the Manager. Pursuant to the terms of the management agreement, which became effective July 6, 2011 (upon the consummation of the Company's initial public offering (the "IPO")), the Manager provides the Company with its management team, including its officers, along with appropriate support personnel. Each of the Company's officers is an employee of Angelo Gordon. The Company does not have any employees. The Manager has delegated to Angelo Gordon the overall responsibility of its day-to-day duties and obligations arising under the Company's management agreement. Below is a description of the fees and reimbursements provided in the management agreement.

On November 1, 2023, TPG completed the previously announced acquisition of Angelo Gordon (the "TPG Transaction"), pursuant to which Angelo Gordon, including the Manager, became indirect subsidiaries of TPG. Pursuant to the management

agreement with the Manager, the closing of the TPG Transaction resulted in an assignment of the management agreement. The independent directors of the Company's board of directors unanimously consented to such assignment on July 31, 2023 in advance of the TPG Transaction closing. There were no changes to the management agreement in connection with the TPG Transaction and the assignment of the management agreement became effective upon the closing of the TPG Transaction.

In connection with the proposed Merger with WMC and contemporaneously with the execution of the Merger Agreement, on August 8, 2023, the Company and the Manager entered into the MITT Management Agreement Amendment, pursuant to which (i) the Manager's base management fee will be reduced by \$0.6 million for the first four quarters (i.e., resulting in an aggregate \$2.4 million waiver of base management fees) following the Effective Time, beginning with the fiscal quarter in which the Effective Time occurs, and (ii) the Manager will waive its right to seek reimbursement from the Company for any expenses otherwise reimbursable by the Company under the management agreement in an amount equal to the excess, if any, of \$7.0 million over the aggregate cash portion of the Per Share Merger Consideration paid by the Manager to the holders of WMC common stock in the Merger. The MITT Management Agreement Amendment will become effective automatically upon the closing of the Merger, and will have no force and effect if the Merger does not close.

Management fee

The Manager is entitled to a management fee equal to 1.50% per annum, calculated and paid quarterly, of the Company's Stockholders' Equity. For purposes of calculating the management fee, "Stockholders' Equity" means the sum of the net proceeds from any issuances of equity securities (including preferred securities) since inception (allocated on a pro rata daily basis for such issuances during the fiscal quarter of any such issuance, and excluding any future equity issuance to the Manager), plus the Company's retained earnings at the end of such quarter (without taking into account any non-cash equity compensation expense or other non-cash items described below incurred in current or prior periods), less any amount that the Company pays for repurchases of its common stock, excluding any unrealized gains, losses or other non-cash items that have impacted stockholders' equity as reported in the Company's financial statements prepared in accordance with GAAP, regardless of whether such items are included in other comprehensive income or loss, or in net income, and excluding one-time events pursuant to changes in GAAP, and certain other non-cash charges after discussions between the Manager and the Company's independent directors and after approval by a majority of the Company's independent directors. Stockholders' Equity, for purposes of calculating the management fee, could be greater or less than the amount of stockholders' equity shown on the Company's financial statements.

The below table details the management fees incurred during the three and nine months ended September 30, 2023 and 2022 (in thousands).

Consolidated statements of operations line item:	Three Months Ended		Nine Months Ended	
	September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022
Management fee to affiliate	\$ 2,054	\$ 2,064	\$ 6,190	\$ 5,984

As of September 30, 2023 and December 31, 2022, the Company recorded management fees payable of \$2.1 million and \$2.1 million, respectively. The management fee payable is included within the "Due to affiliates" item within the "Other liabilities" line item on the consolidated balance sheets.

Incentive fee

The Manager is entitled to an annual incentive fee with respect to each applicable fiscal year, which will be equal to 15% of the amount by which the Company's cumulative adjusted net income from November 22, 2021 exceeds the cumulative hurdle amount, which represents an 8% return (cumulative, but not compounding) on an equity hurdle base consisting of the sum of (i) \$341.5 million and (ii) the gross proceeds of any subsequent public or private common stock offerings by the Company. The annual incentive fee will be payable in cash, or, at the option of the Company's Board of Directors, shares of common stock or a combination of cash and shares.

The Manager waived the annual incentive fee with respect to the fiscal years ending December 31, 2021 and December 31, 2022, and the annual incentive fee will first be payable with respect to the fiscal year ending December 31, 2023. During the three and nine months ended September 30, 2023, the Company did not incur any incentive fee expense.

Termination fee

Upon the occurrence of (i) the Company's termination of the management agreement without cause or (ii) the Manager's termination of the management agreement upon a breach by the Company of any material term of the management agreement, the Manager will be entitled to a termination fee equal to three times the average annual management fee during the 24-month period prior to such termination, calculated as of the end of the most recently completed fiscal quarter. As of September 30, 2023 and December 31, 2022, no event of termination of the management agreement had occurred.

Expense reimbursement

The Company is required to reimburse the Manager or its affiliates for operating expenses which are incurred by the Manager or its affiliates on behalf of the Company, including expenses relating to legal, accounting, due diligence, and other services. The Company's reimbursement obligation is not subject to any dollar limitation; however, the reimbursement is subject to an annual budget process which combines guidelines from the management agreement with oversight by the Company's Board of Directors.

The Company reimburses the Manager or its affiliates for the Company's allocable share of the compensation, including, without limitation, annual base salary, bonus, any related withholding taxes, and employee benefits paid to (i) the Company's chief financial officer based on the percentage of time spent on Company affairs, (ii) the Company's general counsel based on the percentage of time spent on the Company's affairs, and (iii) other corporate finance, tax, accounting, internal audit, legal, risk management, operations, compliance, and other non-investment personnel of the Manager and its affiliates who spend all or a portion of their time managing the Company's affairs based upon the percentage of time devoted by such personnel to the Company's affairs. In their capacities as officers or personnel of the Manager or its affiliates, they devote such portion of their time to the Company's affairs as is necessary to enable the Company to operate its business.

The below table details the expense reimbursement incurred during the three and nine months ended September 30, 2023 and 2022 (in thousands).

Consolidated statements of operations line item:	Three Months Ended		Nine Months Ended	
	September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022

Transaction related expenses	326	738	707	2,484
Expense reimbursements to Manager or its affiliates	\$ 1,874	\$ 2,404	\$ 5,267	\$ 7,336

As of September 30, 2023 and December 31, 2022, the Company recorded a reimbursement payable to the Manager or its affiliates of \$2.3 million and \$1.3 million, respectively. The reimbursement payable to the Manager or its affiliates is included within the "Due to affiliates" item within the "Other liabilities" line item on the consolidated balance sheets.

Restricted stock grants

Equity Incentive Plans

Effective on April 15, 2020 upon the approval of the Company's stockholders at its 2020 annual meeting of stockholders, the 2020 Equity Incentive Plan provides for a maximum of 666,666 shares of common stock to be issued. The maximum number of shares of common stock granted during a single fiscal year to any non-employee director, taken together with any cash fees paid to such non-employee director during any fiscal year, shall not exceed \$300,000 in total value (calculating the value of any such awards based on the grant date fair value). As of September 30, 2023, 505,933 shares of common stock were available to be awarded under the 2020 Equity Incentive Plan.

Since inception of the 2020 Equity Incentive Plan and through September 30, 2023, the Company has granted an aggregate of 160,733 shares of restricted common stock to its independent directors under its 2020 Equity Incentive Plan, all of which have vested.

Manager Equity Incentive Plans

Following approval of the Company's stockholders at its 2021 annual meeting of stockholders, the AG Mortgage Investment Trust, Inc. 2021 Manager Equity Incentive Plan (the "2021 Manager Plan") became effective on April 7, 2021 and provides for a maximum of 573,425 shares of common stock that may be subject to awards thereunder to the Manager. As of September 30, 2023, there were no shares or awards issued under the 2021 Manager Plan.

Director compensation

As of September 30, 2023, the Company's Board of Directors consisted of four independent directors. The annual base director's fee for each independent director is \$150,000, \$70,000 of which is payable on a quarterly basis in cash and \$80,000 of which is payable on a quarterly basis in shares of restricted common stock. The number of shares of restricted common stock to be issued each quarter to each independent director is determined based on the average of the high and low prices of the Company's common stock on the New York Stock Exchange on the last trading day of each fiscal quarter. To the extent that any fractional shares would otherwise be issuable and payable to each independent director, a cash payment is made to each independent director in lieu of any fractional shares. All directors' fees are paid pro rata (and restricted common stock grants determined) on a quarterly basis in arrears, and shares issued are fully vested and non-forfeitable. These shares may not be sold or transferred by such director during the time of their service as an independent member of the Company's Board of Directors.

In addition to the annual base director's fee, the non-executive chair of the Board receives an annual fee of \$60,000, of which \$30,000 is payable in cash and \$30,000 is payable in shares of restricted common stock, the chair of the Audit Committee receives an annual fee of \$25,000, and the chairs of the Compensation and Nominating and Corporate Governance Committees each receive an annual fee of \$10,000.

Investments in debt and equity of affiliates

The Company invests in credit sensitive residential assets through affiliated entities which hold an ownership interest in the assets. The Company is one investor, amongst other investors managed by affiliates of Angelo Gordon, in such entities and has applied the equity method of accounting for such investments.

Arc Home

On December 9, 2015, the Company, alongside private funds managed by Angelo Gordon, through AG Arc LLC, one of the Company's indirect affiliates ("AG Arc"), formed Arc Home. The Company has an approximate 44.6% interest in AG Arc. Arc Home originates residential mortgage loans and retains the mortgage servicing rights associated with certain loans it originates. Arc Home is led by an external management team. The Company has chosen to make a fair value election with respect to its investment in AG Arc pursuant to ASC 825. The Company elected to treat its investment in AG Arc as a taxable REIT subsidiary.

MATH

On August 29, 2017, the Company, alongside private funds managed by Angelo Gordon, formed Mortgage Acquisition Holding I LLC ("MATH") to conduct a residential mortgage investment strategy. The Company has an approximate 44.6% interest in MATH. MATH in turn sponsored the formation of an entity called Mortgage Acquisition Trust I LLC ("MATT") to purchase predominantly Non-QM Loans.

LOTS

On May 15, 2019 and November 14, 2019, the Company, alongside private funds managed by Angelo Gordon, formed LOT SP I LLC and LOT SP II LLC, respectively, (collectively, "LOTS"). The Company has an approximate 47.5% and 50.0% interest in LOT SP I LLC and LOT SP II LLC, respectively. LOTS were formed to originate first mortgage loans to third-party land developers and home builders for the acquisition and horizontal development of land ("Land Related Financing"). In October 2023, the Land Related Financing assets held within LOTS paid off in full.

Transactions with affiliates

Transactions with Red Creek Asset Management LLC

In connection with the Company's investments in residential mortgage loans, the Company engages asset managers to provide advisory, consultation, asset management, and other services. The Company engaged Red Creek Asset Management LLC (the "Asset Manager"), a related party of the Manager and direct subsidiary of Angelo Gordon, as the asset manager for certain of its residential mortgage loans. The Company pays the Asset Manager asset management fees which are assessed periodically and

As of September 30, 2023 and December 31, 2022, the Company recorded asset management fees payable of \$0.2 million and \$0.2 million, respectively. Asset management fees payable are included within the "Due to affiliates" item within the "Other liabilities" line item on the consolidated balance sheets.

Transactions with Arc Home

Arc Home may sell loans to the Company, third-parties, or affiliates of the Manager. The below table details the unpaid principal balance of Non-Agency Loans and Agency-Eligible Loans sold to the Company and private funds under the management of Angelo Gordon during the three and nine months ended September 30, 2023 and 2022 (in thousands).

	Three Months Ended		Nine Months Ended	
	September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022

Residential mortgage loans sold by Arc Home to private funds under the management of Angelo Gordon	93,789	38,792	215,436	170,583

In connection with the sale of loans from Arc Home to the Company, the Company eliminates any intra-entity profits or losses typically recognized through the "Equity in earnings/(loss) from affiliates" line item on the Company's consolidated statement of operations and adjusts the cost basis of the underlying loans resulting in unrealized gains or losses on the underlying loans. The table below summarizes intra-entity profits eliminated during the three and nine months ended September 30, 2023 and 2022 (in thousands).

	Three Months Ended		Nine Months Ended	
	September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022
Intra-Entity Profits Eliminated	\$ 800	\$ 1,755	\$ 1,141	\$ 5,869

As of December 31, 2022, the Company recorded a \$0.5 million receivable from Arc Home related to certain loans purchased from Arc Home which was recorded within the "Other assets" line item on the consolidated balance sheets. The Company received payment for the full amount from Arc Home during the current year.

The Company enters into forward purchase commitments with Arc Home whereby the Company commits to purchase residential mortgage loans from Arc Home at a particular price on a best-efforts basis. Actual loan purchases are contingent upon successful loan closings. These commitments to purchase mortgage loans are classified as derivatives. From time to time, the Company may determine that certain loans it has previously committed to purchase will be sold to third parties and, as a result, the derivative will be settled on a net basis with Arc Home. See Note 7 and Note 12 for more detail.

During the year ended December 31, 2022, the Company determined that certain loans that it had previously committed to purchase from Arc Home would be sold to third parties. The Company net settled its commitment to purchase these loans with Arc Home for \$0.8 million, which represented the difference between the Company's committed price and the ultimate sale price, inclusive of costs to sell the loans. The settlement of these derivatives was recorded within the "Net realized gain/(loss)" and "Transaction related expenses" line items on the consolidated statement of operations.

Stock repurchase programs

On November 3, 2015, the Company's Board of Directors authorized a stock repurchase program (the "2015 Repurchase Program") to repurchase up to \$25.0 million of the Company's outstanding common stock. As of June 30, 2022 the \$25.0 million maximum repurchase amount authorized under the 2015 Repurchase Program was fully utilized. The table below details the Company's share repurchases under the 2015 Repurchase Program during the nine months ended September 30, 2022:

(2) Includes brokerage commissions and clearing fees.

On August 3, 2022, the Company's Board of Directors authorized a stock repurchase program (the "2022 Repurchase Program") to repurchase up to \$15.0 million of the Company's outstanding common stock on substantially the same terms as the 2015 Repurchase Program. The 2022 Repurchase Program does not have an expiration date and permits the Company to repurchase its shares through various methods, including open market repurchases, privately negotiated block transactions and Rule 10b5-1 plans. The Company may repurchase shares of its common stock from time to time in compliance with SEC regulations and other legal requirements. The extent to which the Company repurchases its shares, and the timing, manner, price, and amount of any such repurchases, will depend upon a variety of factors including market conditions and other corporate considerations as determined by the Company's management, as well as the limits of the 2022 Repurchase Program and the Company's liquidity and business strategy. The 2022 Repurchase Program does not obligate the Company to acquire any particular amount of shares and may be modified or discontinued at any time. As of September 30, 2023, approximately \$1.5 million of common stock remained authorized for future share repurchases under the 2022 Repurchase Program. The table

On May 4, 2023, the Company's Board of Directors authorized a stock repurchase program (the "2023 Repurchase Program") to repurchase up to \$15.0 million of the Company's outstanding common stock on substantially the same terms as the 2022 Repurchase Program. As of September 30, 2023, the full \$15.0 million authorized amount remains available for repurchase under the 2023 Repurchase Program. This authorization is in addition to the amount remaining under the 2022 Repurchase Program.

On February 22, 2021, the Company's Board of Directors authorized a stock repurchase program (the "Preferred Repurchase Program") pursuant to which the Company's Board of Directors granted a repurchase authorization to acquire shares of the Company's 8.25% Series A Cumulative Redeemable Preferred Stock ("Series A Preferred Stock"), 8.00% Series B Cumulative Redeemable Preferred Stock ("Series B Preferred Stock"), and 8.000% Series C Fixed-to-Floating Rate Cumulative Redeemable Preferred Stock ("Series C Preferred Stock") having an aggregate value of up to \$20.0 million. No share repurchases under the Preferred Repurchase Program have been made since its authorization.

Shares of stock repurchased by the Company under any repurchase program, if any, will be cancelled and, until reissued by the Company, will be deemed to be authorized but unissued shares of its stock as required by Maryland law. The cost of the acquisition by the Company of shares of its own stock in excess of the aggregate par value of the shares first reduces additional paid-in capital, to the extent available, with any residual cost applied against retained earnings.

Equity distribution agreements

The Company has entered into an equity distribution agreement with each of Credit Suisse Securities (USA) LLC and JMP Securities LLC (collectively, the "Sales Agents"), which the Company refers to as the "Equity Distribution Agreements," pursuant to which the Company may sell up to \$100.0 million aggregate offering price of shares of its common stock from time to time through the Sales Agents under the Securities Act of 1933. The Company did not issue any shares of common stock under the Equity Distribution Agreements during the three and nine months ended September 30, 2023 and 2022. Since inception of the program, the Company has issued approximately 2.2 million shares of common stock under the Equity Distribution Agreements for gross proceeds of \$48.3 million.

Shelf registration statement

On May 7, 2021, the Company filed a new shelf registration statement, registering up to \$1.0 billion of its securities, including capital stock (the "2021 Registration Statement"). The 2021 Registration Statement became effective on May 26, 2021 and will expire on May 28, 2024. Upon effectiveness of the 2021 Registration Statement, the Company's previous registration statement filed in 2018 was terminated.

Preferred stock

The Company is authorized to designate and issue up to 50.0 million shares of preferred stock, par value \$0.01 per share, in one or more classes or series. As of September 30, 2023 and December 31, 2022, there were 1.7 million, 3.7 million, and 3.7 million of Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock, respectively, issued and outstanding.

The following table includes a summary of preferred stock issued and outstanding as of September 30, 2023 (\$ and shares in thousands).

Preferred Stock Series	Issuance Date	Shares Outstanding	Carrying Value	Aggregate Liquidation Preference (1)	Optional Redemption Date (2)	Rate (3)(4)
Series A Preferred Stock	August 3, 2012	1,663	\$ 40,110	\$ 41,580	August 3, 2017	8.25 %
Series B Preferred Stock	September 27, 2012	3,728	90,187	93,191	September 17, 2017	8.00 %
Series C Preferred Stock	September 17, 2019	3,729	90,175	93,220	September 17, 2024	8.000 %
Total		9,120	\$ 220,472	\$ 227,991		

- (1) The Company's Preferred Stock has a liquidation preference of \$25.00 per share.
- (2) Shares have no stated maturity and are not subject to any sinking fund or mandatory redemption. Shares of the Company's Preferred Stock are redeemable at \$25.00 per share plus accumulated and unpaid dividends (whether or not declared) exclusively at the Company's option. Shares of the Company's Series C Preferred Stock may be redeemable earlier than the optional redemption date under certain circumstances intended to preserve its qualification as a REIT for federal income tax purposes.
- (3) The initial dividend rate for the Series C Preferred Stock, from and including the date of original issue to, but not including, September 17, 2024, is 8.000% per annum of the \$25.00 per share liquidation preference. On and after September 17, 2024, dividends on the Series C Preferred Stock will accumulate at a percentage of the \$25.00 liquidation preference equal to an annual floating rate of the then three-month LIBOR (or as replaced by the existing LIBOR cessation fallback language) plus a spread of 6.476% per annum.
- (4) Dividends are payable quarterly in arrears on the 17th day of each March, June, September, and December and holders are entitled to receive cumulative cash dividends at the respective stated rate per annum before holders of common stock are entitled to receive any cash dividends.

The Company's Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock generally do not have any voting rights, subject to an exception in the event the Company fails to pay dividends on such stock for six or more quarterly periods (whether or not consecutive). Under such circumstances, holders of the Company's Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock voting together as a single class with the holders of all other classes or series of its preferred stock upon which like voting rights have been conferred and are exercisable and which are entitled to vote as a class with the Company's Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock will be entitled to vote to elect two additional directors to the Company's Board of Directors until all unpaid dividends have been paid or declared and set apart for payment. In addition, certain material and adverse changes to the terms of any series of the Company's Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock cannot be made without the affirmative vote of holders of at least two-thirds of the outstanding shares of the series of the Company's Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock whose terms are being changed.

12. Commitments and Contingencies

From time to time, the Company may become involved in various claims and legal actions arising in the ordinary course of business. As of September 30, 2023, the Company was not involved in any material legal proceedings.

The below table details the Company's outstanding commitments as of September 30, 2023 (in thousands).

Commitment type	Date of Commitment	Total Commitment	Funded Commitment	Remaining Commitment
Non-Agency and Agency-Eligible Loans (1)	Various	\$ 248,250	\$ —	\$ 248,250

- (1) The Company entered into forward purchase commitments to acquire certain Non-Agency and Agency-Eligible Loans from Arc Home which have not yet settled as of September 30, 2023. Refer to Note 10 "Transactions with affiliates" for more information.

13. Subsequent Events

The Company announced that on October 24, 2023, its Board of Directors declared an interim fourth quarter 2023 common stock dividend on the Company's common stock of \$0.08 per share, made pursuant to the terms of the Merger Agreement in connection with the Merger with WMC. The dividend was paid on November 8, 2023 to stockholders of record as of November 3, 2023.

The Company announced that on November 3, 2023, its Board of Directors declared fourth quarter 2023 preferred stock dividends on its Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock in the amount of \$0.51563, \$0.50 and \$0.50 per share, respectively. The dividends will be paid on December 18, 2023 to holders of record on November 30, 2023.

On November 7, 2023, the Company's stockholders approved the issuance of the Company's common stock in connection with the Merger with WMC at a special stockholders meeting. No further Company stockholder approval is required for the Merger. On November 7, 2023, WMC announced it adjourned its special stockholders meeting relating to the Merger until December 5, 2023, at 9:00 a.m., Pacific Time, online in a virtual-only meeting format, due to a lack of quorum and to allow further solicitation of proxies from WMC common stockholders for the approval of the Merger at such special stockholders meeting. The Merger is expected to close in the fourth quarter of 2023, subject to the satisfaction of certain customary conditions, including approval of WMC's common stockholders.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this quarterly report on Form 10-Q, or this "report," we refer to AG Mortgage Investment Trust, Inc. as "we," "us," the "Company," or "our," unless we specifically state otherwise or the context indicates otherwise. We refer to our external manager, AG REIT Management, LLC, as our "Manager," and we refer to the direct parent company of our Manager, Angelo, Gordon & Co., L.P., as "Angelo Gordon."

The following discussion contains forward looking statements and should be read in conjunction with our consolidated financial statements and the accompanying notes to our consolidated financial statements, which are included in Item 1 of this report, as well as the information contained in our Annual Report on Form 10-K for the year ended December 31, 2022, and any subsequent filings.

Forward-Looking Statements

We make forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), in this report that are subject to substantial known and unknown risks and uncertainties. These forward-looking statements include information about possible or assumed future results of our business, financial condition, liquidity, returns, results of operations, plans, yields, objectives, the composition of our portfolio, actions by governmental entities, including the Federal Reserve, and the potential effects of actual and proposed legislation on us, and our views on certain macroeconomic trends, and the impact of the novel coronavirus ("COVID-19"). When we use the words "believe," "expect," "anticipate," "estimate," "plan," "continue," "intend," "should," "may" or similar expressions, we intend to identify forward-looking statements.

These forward-looking statements are based upon information presently available to our management and are inherently subjective, uncertain and subject to change. There can be no assurance that actual results will not differ materially from our expectations. Some, but not all, of the factors that might cause such a difference include, without limitation:

- the persistence of labor shortages, supply chain imbalances, the Israel-Hamas conflict, Russia's invasion of Ukraine, inflation, lingering impact of the COVID-19 pandemic, and the potential for an economic recession;
- changes in our business and investment strategy;
- our ability to predict and control costs;
- changes in interest rates and the fair value of our assets, including negative changes resulting in margin calls relating to the financing of our assets;
- changes in the yield curve;
- changes in prepayment rates on the loans we own or that underlie our investment securities;
- regulatory and structural changes in the residential loan market and its impact on non-agency mortgage markets;
- increased rates of default or delinquencies and/or decreased recovery rates on our assets;
- our ability to obtain and maintain financing arrangements on terms favorable to us or at all;
- our ability to enter into, or refinance, securitization transactions on the terms and pace anticipated or at all;
- the degree to which our hedging strategies may or may not protect us from interest rate and credit risk volatility;
- our ability to close anticipated loan sale transactions on the terms and timing anticipated or at all;
- on the changes in general economic conditions, in our industry and in the finance and real estate markets, including the impact on the value of our assets;
- conditions in the market for Residential Investments and Agency RMBS;
- legislative and regulatory actions by the U.S. Congress, U.S. Department of the Treasury, the Federal Reserve and other agencies and instrumentalities;
- our ability to make distributions to our stockholders in the future;
- our ability to maintain our qualification as a REIT for federal tax purposes;
- our ability to qualify for an exemption from registration under the Investment Company Act of 1940, as amended (the "Investment Company Act"); and
- our ability to successfully complete our proposed merger with Western Asset Mortgage Capital Corporation and/or realize all of the expected benefits or that such benefits may take longer to realize than expected (including because we incur significant costs associated with such merger).

We caution investors not to rely unduly on any forward-looking statements, which speak only as of the date made, and urge you to carefully consider the risks noted above and identified under the captions "Risk Factors," and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2022, our Quarterly Report on Form 10-Q for the quarter ended June 30, 2023 and any subsequent filings. New risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. All forward-looking statements that we make, or that are attributable to us, are expressly qualified by this cautionary notice.

Strategic Acquisition

- Entered into an Agreement and Plan of Merger with Western Asset Mortgage Capital Corporation ("WMC"), pursuant to which WMC will merge with and into AGMIT Merger Sub, LLC, a wholly owned subsidiary of ours ("Merger Sub"), with Merger Sub surviving. The Merger is expected to close in the fourth quarter of 2023. For additional information, see "—Proposed Western Asset Mortgage Capital Corporation Merger" below.

Our company

We are a residential mortgage REIT with a focus on investing in a diversified risk-adjusted portfolio of residential mortgage-related assets in the U.S. mortgage market. Our objective is to provide attractive risk-adjusted returns to our stockholders over the long-term, primarily through dividends and capital appreciation.

We focus our investment activities primarily on acquiring and securitizing newly-originated residential mortgage loans within the non-agency segment of the housing market. We obtain our assets through Arc Home, LLC ("Arc Home"), our residential mortgage loan originator in which we own an approximate 44.6% interest, and through other third-party origination partners. We finance our acquired loans through various financing lines on a short-term basis and utilize Angelo Gordon's proprietary securitization platform to secure long-term, non-recourse, non-mark-to-market financing as market conditions permit. Through our ownership in Arc Home, we also have exposure to mortgage banking activities. Arc Home is a multi-channel licensed mortgage originator and servicer primarily engaged in the business of originating and selling residential mortgage loans while retaining the mortgage servicing rights associated with certain loans that it originates.

Our investment portfolio (which excludes our ownership in Arc Home) includes Residential Investments and Agency RMBS. Currently, our Residential Investments primarily consist of newly originated Non-Agency Loans and Agency-Eligible Loans, which we refer to as our target assets. In addition, we may also invest in other types of residential mortgage loans and other mortgage related assets. As of September 30, 2023, the Company's investment portfolio consisted of the following:

Asset Class	Description
Residential Investments	
Non-Agency Loans ⁽¹⁾	• Non-Agency Loans are loans that do not conform to the underwriting guidelines of a government-sponsored enterprise ("GSE"). Non-Agency Loans consist of Qualified mortgage loans ("QM Loans") and Non-Qualified mortgage loans ("Non-QM Loans"). QM Loans are residential mortgage loans that comply with the Ability-To-Repay rules and related guidelines of the Consumer Finance Protection Bureau.
Agency-Eligible Loans ⁽¹⁾	• Agency-Eligible Loans are loans that are underwritten in accordance with GSE guidelines and are primarily secured by investment properties, but are not guaranteed by a GSE. Although these loans are underwritten in accordance with GSE guidelines and can be delivered to Fannie Mae and Freddie Mac, we include these loans within our Non-Agency securitizations.
Re- and Non-Performing Loans ⁽¹⁾	• Performing, re-performing, and non-performing loans are residential mortgage loans collateralized by a first lien mortgaged property.
Non-Agency Residential Mortgage-Backed Securities ("RMBS") ⁽²⁾	• Non-Agency RMBS represent fixed- and floating-rate RMBS issued by entities other than U.S. GSEs or agencies of the U.S. government. The mortgage loan collateral consists of either Non-Agency Loans or Agency-Eligible Loans.
Agency RMBS ⁽²⁾	• Agency RMBS represent interests in pools of residential mortgage loans guaranteed by a GSE such as Fannie Mae or Freddie Mac, or an agency of the U.S. Government such as Ginnie Mae.

(1) These investments are included in the "Securitized residential mortgage loans, at fair value," "Residential mortgage loans, at fair value," and "Residential mortgage loans held for sale, at fair value" line items on the consolidated balance sheets.

(2) These investments are included in the "Real estate securities, at fair value" line item on the consolidated balance sheets.

Our primary sources of income are net interest income from our investment portfolio, changes in the fair value of our investments, and income from our investment in Arc Home. Net interest income consists of the interest income we earn on investments less the interest expense we incur on borrowed funds and any costs or benefits related to hedging. Income from our investment in Arc Home is generated through its mortgage banking activities which represents the origination and subsequent sale of residential mortgage loans and servicing income sourced from its portfolio of mortgage servicing rights.

We were incorporated in Maryland on March 1, 2011 and commenced operations in July 2011. We conduct our operations to qualify and be taxed as a REIT for U.S. federal income tax purposes. Accordingly, we generally will not be subject to U.S. federal income taxes on our taxable income that we distribute to our stockholders as long as we maintain our intended qualification as a REIT, with the exception of business conducted in our domestic taxable REIT subsidiaries ("TRSs") which are subject to corporate income tax. We also operate our business in a manner that permits us to maintain our exemption from registration under the Investment Company Act.

Proposed Western Asset Mortgage Capital Corporation Merger

On August 8, 2023, we entered into an Agreement and Plan of Merger (the "Merger Agreement") with WMC, Merger Sub and, solely for the purposes set forth in the Merger Agreement, our Manager. Pursuant to, and subject to the terms and conditions set forth in the Merger Agreement, WMC will merge with and into Merger Sub, with Merger Sub surviving (the "Merger").

On November 7, 2023, our stockholders approved the issuance of our common stock in connection with the Merger with WMC at a special stockholders meeting. No further approval by our stockholders is required for the Merger. On November 7, 2023, WMC announced it adjourned its special stockholders meeting relating to the Merger until December 5, 2023, at 9:00 a.m., Pacific Time, online in a virtual-only meeting format, due to a lack of quorum and to allow further solicitation of proxies from WMC common stockholders for the approval of the Merger at such special stockholders meeting. The Merger is expected to close in the fourth quarter of 2023, subject to the satisfaction of certain customary conditions, including approval of WMC's common stockholders.

Under the terms of the Merger Agreement, at the effective time of the Merger (the "Effective Time"), each outstanding share of WMC common stock will be converted into the right to receive the following (the "Per Share Merger Consideration"): (i) 1.498 shares, or approximately 9.2 million shares in aggregate, of our common stock; and (ii) the per share portion of a cash payment from our Manager equal to the lesser of \$7.0 million or approximately 9.9% of the aggregate Per Share Merger Consideration. Cash will be paid in lieu of any fractional shares of our common stock that would otherwise have been received as a result of the Merger.

In addition, on August 8, 2023, we and our Manager entered into an amendment (the "MITT Management Agreement Amendment") to the existing management agreement, pursuant to which (i) the base management fee will be reduced by \$0.6 million for the first four quarters (i.e., resulting in an aggregate \$2.4 million waiver of base management fees) following the Effective Time, beginning with the fiscal quarter in which the Effective Time occurs, and (ii) our Manager will waive its right to seek reimbursement from us for any expenses otherwise reimbursable by us under the management agreement in an amount equal to the excess, if any, of \$7.0 million over the aggregate cash portion of the Per Share Merger Consideration paid by our Manager to the holders of WMC common stock in the Merger. The MITT Management Agreement Amendment will become effective automatically upon the closing of the Merger, and will have no force and effect if the Merger does not close.

Further, in the Merger Agreement, we have agreed to take all necessary corporate action so that upon and after the Effective Time, the size of our Board of Directors will be increased by two members, and M. Christian Mitchell and Lisa G. Quateman (the "WMC Director Designees") will be appointed to our Board of Directors. We have further agreed to nominate the WMC Director Designees to our Board of Directors at the next annual meeting following the Effective Time.

Concurrently with the execution of the Merger Agreement, WMC terminated its merger agreement (the "TPT Merger Agreement") with Terra Property Trust, Inc. ("TPT"). In connection with such termination, we, on behalf of WMC, paid to TPT a termination fee of \$3.0 million as required by the TPT Merger Agreement (the "TPT Termination Fee").

Our Manager and Angelo Gordon

We are externally managed by our Manager, a subsidiary of Angelo Gordon, a diversified credit and real estate investing platform within TPG Inc. ("TPG"). Pursuant to the terms of our management agreement, our Manager provides us with our management team, including our officers, along with appropriate support personnel. All of our officers are employees of Angelo Gordon or its affiliates. We do not have any employees. Our Manager is at all times subject to the supervision and oversight of our Board of Directors and has only such functions and authority as our Board of Directors delegates to it. Our Manager has delegated to Angelo Gordon the overall responsibility with respect to our Manager's day-to-day duties and obligations arising under our management agreement.

On November 1, 2023, TPG completed the previously announced acquisition of Angelo Gordon (the "TPG Transaction"), pursuant to which Angelo Gordon, including our Manager, became indirect subsidiaries of TPG. Pursuant to our management agreement, the closing of the TPG Transaction resulted in an assignment of the management agreement. Our independent directors unanimously consented to such assignment on July 31, 2023 in advance of the TPG Transaction closing. There were no changes to the management agreement in connection with the TPG Transaction and the assignment of the management agreement became effective upon the closing of the TPG Transaction.

Through our relationship with our Manager, we benefit from the expertise and relationships that Angelo Gordon has established which provides us with resources to generate attractive risk-adjusted returns for our stockholders. Our management has significant experience in the mortgage industry and expertise in structured credit investments. We are able to leverage our Manager, along with our ownership interest in Arc Home, a vertically integrated origination platform, to access investment opportunities in the non-agency residential mortgage loan market. This strategic advantage has enabled us to grow our investment portfolio and remain active in the securitization markets, utilizing Angelo Gordon's proprietary securitization platform to deliver non-agency investments to a diverse mix of investors.

Market Conditions

Financial markets continued to experience volatility during the third quarter of 2023 due to multiple factors including the impacts of inflation, the path of monetary policy and interest rates, the U.S. debt ceiling, market uncertainty from the ongoing conflicts in Ukraine and Israel and other geopolitical risks. The Federal Reserve has continued with monetary policy tightening resulting in benchmark interest rates increasing further during the third quarter. From June through October, the 10-year U.S. treasury yield increased more than 100 basis points and the 30-year fixed rate mortgage is currently at 7.8%. The increase in longer-term U.S. treasury yields support the restrictive monetary policy of the Federal Reserve, potentially reducing the need

for additional increases in short-term rates; however, it is possible longer-term rates may remain elevated for much longer. The second quarter ended with the spread between the 2-year and 10-year U.S. treasury yields peaking at approximately 106 basis points inverted. At the end of the third quarter, the curve inversion was only 48 basis points. While the Federal Reserve's policy tightening has slowed the U.S. economy, growth in GDP, low unemployment and strength in consumer spending persist. As such, it is unknown how long monetary policy will remain at the current restrictive levels.

RMBS spreads tightened during the third quarter, despite the broader weakness in risk markets. Trends in credit spreads on credit risk transfer ("CRT") assets are generally utilized by market participants as a proxy for evaluating credit related assets given the observability of transactions. CRT tranches tightened sharply, with lower credit tranches tightening as much as 200 basis points while the middle of the capital structure contracted by up to 100 basis points. Senior Non-QM spreads changed minimally while BBB Non-QM tightened by 25 basis points, and legacy RMBS spreads were approximately 10 basis points tighter. Spreads are significantly tighter year-to-date as well, mostly by 50 to 100 basis points, though pockets of CRT tightened as much as 200 to 300 basis points or more. Despite this positive performance over 2023, most of the sector remains up to 50 to 100 basis points wide of February 2022 levels, offering a runway for additional potential price improvement. Although the third quarter experienced spread tightening, the risk-off sentiment of October 2023 has begun to drive widening across credit spreads.

Compared to the second quarter of 2023, RMBS issuance was roughly flat at \$15.5 billion in the third quarter as a decline in CRT issuance was offset by increases in Jumbo 2.0 and Single-Family Rental production. Year-over-year, issuance fell 47% from \$29 billion in the third quarter of 2022. Year-to-date activity in 2023 totaled \$49.5 billion, down approximately 62% year-over-year amid limited origination activity and higher securitization coupons. Various reports from bank research departments expect issuance for the full year 2023 to be between \$60 to \$70 billion, down from \$127 billion in 2022 and \$213 billion in 2021.

Home prices continued to rally as the national S&P/Case-Shiller Home Price Index was up 5.3% through the first seven months of the year, exceeding the prior peak in June 2022 by 0.6%, according to the latest available data. Of the 20 markets tracked by Case-Shiller, 12 were at their all-time high, with most of the laggards from the west coast, including San Francisco and Seattle, which were below their peaks by 10.8% and 10.1%, respectively.

Prevailing mortgage rates ended October 2023 at 7.8%, reaching the highest level since 2000 and making the strength in home prices all the more remarkable. That said, sentiment among home builders and home buyers declined off 2023 highs, particularly after the second breach of 7% mortgage rates this year. The volatile new home sales index gained some share against existing homes throughout the year, however new sales fell from 739,000 to 675,000 in the latest data for August. The current "lock-in effect", or disincentive for existing homeowners to sell their homes because their current mortgage rate is well below current market rates, has hampered existing sales volume to 4 million units. Total listings were 1.1 million in August, in-line with the previous few months but down significantly from pre-pandemic years, such as 1.91 million in 2019. New listings, which offer a timelier view of current supply, have totaled only 2.95 million through August 2023, that compares to 3.6 to 4.1 million in the first eight months of 2018-2020 and 4.0 to 4.3 million in 2021 and 2022.

Despite prevailing mortgage rates at multi-decade highs, sufficient demand continues to exist to support the housing market. The percentage of listings off the market within two weeks remains elevated at 38%, and the median days on market is within the range established over the last three years. While homeownership affordability is near all-time lows, housing supply continues to be constrained and demand for housing remains evident as borrowers reset in a higher-rate environment.

Presentation of investment, financing and hedging activities

In the "Investment activities," "Financing activities," "Hedging activities," and "Liquidity and capital resources" sections of this Item 2, we present information on our investment portfolio and the related financing arrangements inclusive of unconsolidated ownership interests in affiliates that are accounted for under GAAP using the equity method. Our investment portfolio excludes our investment in Arc Home.

Our investment portfolio and the related financing arrangements are presented along with a reconciliation to GAAP. This presentation of our investment portfolio is consistent with how our management team evaluates the business, and we believe this presentation, when considered with the GAAP presentation, provides supplemental information useful for investors in evaluating our investment portfolio and financial condition. See Note 10 to the "Notes to Consolidated Financial Statements"

(unaudited)" for a discussion of investments in debt and equity of affiliates. See below for further terms used when describing our investment portfolio.

- Our "Investment portfolio" includes our Residential Investments and Agency RMBS, inclusive of TBAs.
- Our "Residential Investments" refer to our residential mortgage loans and Non-Agency RMBS.
 - "Residential mortgage loans" or "Loans" refer to our Non-Agency Loans, Agency-Eligible Loans, and Re/Non-Performing Loans (exclusive of retained tranches from unconsolidated securitizations) and Land Related Financing.
 - "Non-Agency RMBS" refer to the retained tranches from unconsolidated securitizations of Non-Agency Loans and Re/Non-Performing Loans issued under the GCAT shelf, as well as RMBS collateralized by Non-Agency Loans and Agency-Eligible Loans.
- "Real estate securities" refers to our Non-Agency RMBS and Agency RMBS, inclusive of TBAs.
- Our "GAAP Residential Investments" refer to our Residential Investments excluding investments held within affiliated entities.
- Our "GAAP Investment portfolio" includes our GAAP Residential Investments and Agency RMBS.

For a reconciliation of our Investment portfolio to our GAAP Investment portfolio, see the *Investment Portfolio* section below.

Book value and Adjusted book value per share

The below table details book value and adjusted book value per common share. Per share amounts for book value are calculated using all outstanding common shares in accordance with GAAP as of quarter-end.

	September 30, 2023	December 31, 2022
Book value per common share	\$ 11.37	\$ 11.39
Net proceeds of preferred stock less liquidation preference of preferred stock per common share (1)	(0.37)	(0.36)
Adjusted book value per common share	\$ 11.00	\$ 11.03

- (1) Book value per common share is calculated using stockholders' equity less net proceeds of \$220.5 million on our issued and outstanding preferred stock as the numerator. Adjusted book value per common share is calculated using stockholders' equity less the liquidation preference of \$228.0 million on our issued and outstanding preferred stock as the numerator.

Results of Operations

Our operating results can be affected by a number of factors and primarily depend on the size and composition of our investment portfolio, the level of our net interest income, the fair value of our assets and the supply of, and demand for, our investments in residential mortgage loans in the marketplace, among other things, which can be impacted by unanticipated credit events, such as defaults, liquidations or delinquencies, experienced by borrowers whose residential mortgage loans are included in our investment portfolio and other unanticipated events in our markets. Our primary source of net income or loss available to common stockholders is our net interest income, inclusive of our cost or benefit of hedging, which represents the difference between the interest earned on our investment portfolio and the costs of financing and economic hedges in place on our investment portfolio, as well as any income or losses from our equity investments in affiliates.

Interest income

Interest income is calculated using the effective interest method for our GAAP investment portfolio.

Interest income increased from the three months ended September 30, 2022 to the three months ended September 30, 2023 due to an increase in the size of our portfolio resulting from purchases of Non-Agency Loans and Agency-Eligible Loans during the period, as well as an increase in the weighted average yield. The following table presents a summary of the weighted average amortized cost and the weighted average yield on our GAAP investment portfolio for the three months ended September 30, 2023 and 2022 (\$ in millions).

	Three Months Ended		Increase/(Decrease)
	September 30, 2023	September 30, 2022	
Weighted average amortized cost of our GAAP investment portfolio	\$ 4,932	\$ 4,303	\$ 629
Weighted average yield on our GAAP investment portfolio	5.21 %	4.67 %	0.54 %

Interest expense

Interest expense is calculated based on the actual financing rate and the outstanding financing balance, inclusive of our financing arrangements and securitized debt, on our GAAP investment portfolio.

Interest expense increased from the three months ended September 30, 2022 to the three months ended September 30, 2023 due to an increase in the weighted average financing rate during the period resulting from increased interest rates and an increase in the amount of financing on our GAAP investment portfolio primarily resulting from the issuance of securitized debt. The following table presents a summary of the weighted average financing balance and the weighted average financing rate on our GAAP investment portfolio for the three months ended September 30, 2023 and 2022 (\$ in millions).

	Three Months Ended		
	September 30, 2023	September 30, 2022	Increase/(Decrease)
Weighted average GAAP financing balance	\$ 4,575	\$ 3,973	\$ 602
Weighted average financing rate on our GAAP investment portfolio	4.61 %	3.49 %	1.12 %

Net interest component of interest rate swaps

Net interest component of interest rate swaps represents the net interest income received or expense paid on our interest rate swaps.

We recorded income on the net interest component of interest rate swaps during the three months ended September 30, 2023 as a result of our swap portfolio being in a net receive position during the entire period, compared with an expense for the three months ended September 30, 2022 as a result of our swap portfolio being in a net pay position during part of the period. The following table presents a summary of our interest rate swap portfolio as of September 30, 2023 and 2022 (\$ in millions).

	September 30, 2023	September 30, 2022	Increase/(Decrease)
Interest rate swap notional value	\$ 405	\$ 684	\$ (279)

Management fee to affiliate

Our management fee is based upon a percentage of our Stockholders' Equity. See the "Contractual obligations" section of this Item 2 for further detail on the calculation of our management fee and for the definition of Stockholders' Equity. Management fees remained relatively consistent from the three months ended September 30, 2022 to the three months ended September 30, 2023.

Non-investment related expenses

Non-investment related expenses are primarily comprised of professional fees, directors' and officers' ("D&O") insurance, directors' compensation, and certain non-investment related expenses reimbursable to our Manager or its affiliates. We are required to reimburse our Manager or its affiliates for operating expenses incurred by our Manager or its affiliates on our behalf, including certain compensation expenses and other expenses relating to legal, accounting, and other services. Refer to the "Contractual obligations" section below for more detail on certain expenses reimbursable to our Manager or its affiliates. The following table presents a summary of our non-investment related expenses for the three months ended September 30, 2023 and 2022 (in thousands).

Transaction related expenses

Transaction related expenses are expenses typically associated with purchasing and securitizing residential mortgage loans as well as certain other transaction and performance related fees associated with assets we invest in. On August 8, 2023, we entered into a Merger Agreement with WMC and, as a result, we have incurred certain expenses related to the pending Merger during the current period. Transaction related expenses increased from the three months ended September 30, 2022 to the three months ended September 30, 2023 primarily due to \$4.9 million of expenses recorded related to the pending Merger with WMC, which includes the \$3.0 million TPT Termination Fee we paid to TPT on WMC's behalf in connection with its termination of the TPT Merger Agreement.

Equity in earnings/(loss) from affiliates

Equity in earnings/(loss) from affiliates represents our share of earnings and profits of investments held within affiliated entities. Substantially all of these investments are comprised of real estate securities, loans, and our investment in AG Arc which holds our investment in Arc Home. The below tables summarize the components of the "Equity in earnings/(loss) from affiliates" line item on our consolidated statements of operations (in thousands).

Earnings Available for Distribution

One of our objectives is to generate net income from net interest margin on the portfolio, and management uses Earnings Available for Distribution ("EAD"), as one of several metrics, to help measure our performance against this objective. Management believes that this non-GAAP measure, when considered with our GAAP financial statements, provides supplemental information useful for investors to help evaluate our financial performance. However, management also believes that our definition of EAD has important limitations as it does not include certain earnings or losses our management team considers in evaluating our financial performance. Our presentation of EAD may not be comparable to similarly-titled measures of other companies, who may use different calculations. This non-GAAP measure should not be considered a substitute for, or superior to, Net Income/(loss) available to common stockholders or Net income/(loss) per diluted common share calculated in accordance with GAAP. Our GAAP financial results and the reconciliations from these results should be carefully evaluated.

We define EAD, a non-GAAP financial measure, as Net Income/(loss) available to common stockholders excluding (i) (a) unrealized gains/(losses) on loans, real estate securities, derivatives and other investments, inclusive of our investment in AG Arc, and (b) net realized gains/(losses) on the sale or termination of such instruments, (ii) any transaction related expenses incurred in connection with the acquisition, disposition, or securitization of our investments as well as transaction related expenses incurred in connection with the pending Merger with WMC, (iii) accrued deal-related performance fees payable to third party operators to the extent the primary component of the accrual relates to items that are excluded from EAD, such as unrealized and realized gains/(losses), (iv) realized and unrealized changes in the fair value of Arc Home's net mortgage servicing rights and the derivatives intended to offset changes in the fair value of those net mortgage servicing rights, (v) deferred taxes recognized at our taxable REIT subsidiaries, if any, and (vi) any gains/(losses) associated with exchange transactions on our common and preferred stock. Items (i) through (vi) above include any amount related to those items held in

affiliated entities. Management considers the transaction related expenses referenced in (ii) above to be similar to realized losses incurred at the acquisition, disposition, or securitization of an asset and does not view them as being part of its core operations. Management views the exclusion described in (iv) above to be consistent with how it calculates EAD on the remainder of its portfolio. Management excludes all deferred taxes because it believes deferred taxes are not representative of current operations. EAD includes the net interest income and other income earned on our investments on a yield adjusted basis, including TBA dollar roll income/(loss) or any other investment activity that may earn or pay net interest or its economic equivalent.

A reconciliation of "Net Income/(loss) available to common stockholders" to EAD for the three and nine months ended September 30, 2023 and 2022 is set forth below (in thousands, except per share data).

- (1) For the three months ended September 30, 2023 and 2022, total transaction related expenses and deal related performance fees included \$7.6 million and \$5.3 million, respectively, recorded within the "Transaction related expenses" line item and \$9.4 thousand and \$0.2 million, respectively, recorded within the "Interest expense" line item, which relates to the amortization of deferred financing costs. For the nine months ended September 30, 2023 and 2022, total transaction related expenses and deal related performance fees included \$9.7 million and \$14.9 million, respectively, recorded within the "Transaction related expenses" line item and \$0.2 million and \$0.7 million, respectively, recorded within the "Interest expense" line item, which relates to the amortization of deferred financing costs.
- (2) For the three months ended September 30, 2023 and 2022, \$0.4 million or \$0.02 per share and \$2.4 million or \$0.11 per share, respectively; and for the nine months ended September 30, 2023 and 2022, \$1.2 million or \$0.06 per share and \$9.2 million or \$0.40 per share, respectively, of realized and unrealized changes in the fair value of Arc Home's net mortgage servicing rights and corresponding derivatives were excluded from EAD, net of deferred tax expense or benefit. Additionally, for the three months ended September 30, 2023 and 2022, \$(1.9) million or \$(0.09) per share and \$(1.2) million or \$(0.05) per share, respectively; and for the nine months ended September 30, 2023 and 2022, \$(1.7) million or \$(0.08) per share and \$(6.4) million or \$(0.28) per share, respectively, of unrealized changes in the fair value of our investment in Arc Home were excluded from EAD.
- (3) EAD recognized by AG Arc does not include our portion of gains recorded by Arc Home in connection with the sale of residential mortgage loans to us. For the three months ended September 30, 2023 and 2022, we eliminated \$0.8 million or \$0.04 per share and \$1.8 million or \$0.08 per share, respectively; and for the nine months ended September 30, 2023 and 2022, we eliminated \$1.1 million or \$0.06 per share and \$5.9 million or \$0.25 per share, respectively, of intra-entity profits recognized by Arc Home, and also decreased the cost basis of the underlying loans we purchased by the same amount. Refer to Note 10 to the "Notes to Consolidated Financial Statements (unaudited)" for more information on this accounting policy.

Investment activities

Investment activities

We aim to allocate capital to investment opportunities with attractive risk/return profiles in our target asset classes. Our investment activities primarily include acquiring and securitizing newly-originated residential mortgage loans. We finance our acquired loans through various financing lines on a short-term basis and securitize the loans to obtain long-term, non-recourse, non-mark-to-market financing as market conditions permit. We may also invest in Agency RMBS to utilize excess liquidity. Our investment and capital allocation decisions depend on prevailing market conditions and compliance with Investment Company Act and REIT tests, among other factors, and may change over time in response to opportunities available in different economic and capital market environments. As a result, in reacting to market conditions and taking into account a variety of

other factors, including liquidity, duration, and interest rate expectations, the mix of our assets changes over time as we deploy capital. We actively evaluate our investments based on factors including, among others, the characteristics of the underlying collateral, geography, expected return, expected future prepayment trends, supply of and demand for our investments, costs of financing, costs of hedging, expected future interest rate volatility, and the overall shape of the U.S. Treasury and interest rate swap yield curves.

Net interest margin and leverage ratio

Net interest margin and leverage ratio are metrics that management believes should be considered when evaluating the performance of our investment portfolio.

GAAP net interest margin and non-GAAP net interest margin, a non-GAAP financial measure, are calculated by subtracting the weighted average cost of funds from the weighted average yield for our GAAP investment portfolio and our investment portfolio, respectively. The weighted average yield represents an effective interest rate on our cost basis, which utilizes all estimates of future cash flows and adjusts for actual prepayment and cash flow activity as of quarter-end. The calculation of weighted average yield is weighted on fair value at quarter-end. The weighted average cost of funds is the sum of the weighted average funding costs on total financing arrangements outstanding at quarter-end, including all non-recourse financing arrangements, and our weighted average hedging cost or benefit, which is the weighted average of the net pay or receive rates on our interest rate swaps. GAAP and non-GAAP cost of funds are weighted by the outstanding financing arrangements on our GAAP investment portfolio and our investment portfolio, respectively, and the fair value of securitized debt at quarter-end.

Our leverage ratio is determined by our portfolio mix as well as many additional factors, including the liquidity of our portfolio, the availability and price of our financing, the available capacity to finance our assets, and anticipated regulatory developments. See the "Financing activities" section below for more detail on our leverage ratio.

(a) Excludes any net TBA positions.

(b) Includes the cost (interest expense) or benefit (interest income) from our interest rate swap hedges. The benefit of hedging as of September 30, 2023 was 0.12%.

(c) Allocated equity represents the investment fair value less the associated securitized debt at fair value and financing arrangements, where applicable.

(d) The leverage ratio on each asset class and on our investment portfolio represents Economic Leverage as defined below in the "Financing Activities" section and is calculated by dividing each investment type's total recourse financing arrangements less any cash posted as collateral by its equity invested inclusive of any cash collateral posted on financing arrangements. The Economic Leverage Ratio excludes any fully non-recourse financing arrangements and includes any net receivables or payables on TBAs. The leverage ratio on our GAAP Investment Portfolio represents GAAP leverage as defined below in the "Financing Activities" section.

(e) Cash and cash equivalents may include a portion of cash invested in money market funds. The yield represents the interest earned on money market funds as of period end.

(f) Interest rate swaps represents the sum of the net fair value of interest rate swaps and the margin posted on interest rate swaps as of period end. Yield on interest rate swaps represents the weighted average net receive/(pay) rate as of period end. The impact of the net interest component of interest rate swaps on the cost of funds is included within the respective investment portfolio asset line items.

(g) Refer to the "Financing activities" section below for an aggregate breakout of leverage.

- (1) Refer to Note 10 to the "Notes of the Consolidated Financial Statements (unaudited)" for more detail on what is included in our "Investments in debt and equity of affiliates" line item on our consolidated balance sheets. Our assets held through Investments in debt and equity of affiliates are included in the "Land Related Financing," "MATT Non-QM Securities," and "Re/Non-Performing Securities" line items above.
- (2) Equity residuals with a zero coupon rate are excluded from this calculation.
- (3) Weighted average life is based on projected life. Typically, actual maturities are shorter than stated contractual maturities. Maturities are affected by the contractual lives of the underlying mortgages, periodic payments of principal, and prepayments of principal.
- (4) Securitized Non-Agency Loans include loans that were considered to be Agency-Eligible prior to our securitization.
- (5) GCAT Non-Agency RMBS are securities issued under Gold Creek Asset Trust ("GCAT"), which is the Angelo Gordon securitization shelf under which we or private funds under the management of Angelo Gordon securitize loans.
- (6) Includes Non-Agency Securities collateralized by non-QM loans and agency-eligible loans.
- (7) Interest Only have no principal balances and bear interest based on a notional balance. The notional balance is used solely to determine interest distributions on the interest only classes of securities. The GCAT Non-Agency RMBS Interest Only, MATT Non-QM Securities, Re/Non-Performing Securities, and Agency RMBS Interest Only line items include interest only classes with notional balances of \$98.9 million, \$299.4 million, \$25.2 million, and \$79.9 million, respectively.

Residential mortgage loans

See Note 3 to the "Notes to Consolidated Financial Statements (unaudited)" for information on credit quality and a breakout of geographic concentration of credit risk within loans we include in the "Securitized residential mortgage loans, at fair value," "Residential mortgage loans, at fair value," and "Residential mortgage loans held for sale, at fair value" line items on our consolidated balance sheets.

Securitized Non-Agency Loans

As noted above, our investment activities primarily include acquiring and securitizing newly-originated residential mortgage loans. These securitization trusts ("Non-Agency VIEs") are collateralized by Non-Agency and Agency-Eligible Loans.

In each securitization transaction, we transfer a pool of loans to a wholly-owned subsidiary and the loans are deposited into a newly created securitization trust. The securitization trust issues various classes of mortgage pass-through certificates backed by the cash flows from the underlying residential mortgage loans (the "Certificates"). When we sponsor a residential mortgage loan securitization, we are generally required to retain at least 5% of the fair value of the Certificates issued in the securitization ("Risk Retention Rules"). We can retain either an "eligible vertical interest" (which consists of at least 5% of each class of securities issued in the securitization), an "eligible horizontal residual interest" (which is the most subordinate class of securities with a fair value of at least 5% of the aggregate credit risk) or a combination of both totaling 5% (the "Required Credit Risk"). In order to comply with the Risk Retention Rules in each securitization transaction, we generally purchase the most subordinated classes of Certificates and the excess cash flow Certificates. We also purchase the Certificates entitled to excess servicing fees and may purchase other Certificates issued by the securitization trust, while typically selling the senior classes of Certificates to unrelated third parties.

If we are determined to be the primary beneficiary of these securitization transactions, we consolidate the respective VIE created to facilitate the transaction and record "Securitized residential mortgage loans" and "Securitized debt" on the consolidated balance sheets in accordance with U.S. GAAP. However, as noted above, our equity at risk represents certain Certificates from each securitization which we retain.

The following table summarizes our Securitized residential mortgage loans and Securitized debt, as well as the economic interest on retained Certificates related to our Non-Agency VIEs (in thousands).

- (1) Interest Only have no principal balances and bear interest based on a notional balance. The notional balance is used solely to determine interest distributions on the interest only classes of securities. As of September 30, 2023 and December 31, 2022, the Securitized debt in Non-Agency VIEs line item includes interest only classes with notional balances of \$135.7 million and \$144.3 million, respectively. As of September 30, 2023 and December 31, 2022, the notional balance on Interest Only / Excess Servicing Bonds was \$9.3 billion and \$8.0 billion, respectively.
- (2) Represents the fair value of real estate owned within Non-Agency VIEs. We record real estate owned at the lower of cost or fair value less estimated costs to sell. As of September 30, 2023, we recorded real estate owned within our Non-Agency VIEs at \$1.2 million.
- (3) Maximum loss exposure from our involvement with VIEs pertains to the fair value of the Certificates retained from the VIEs. We have no obligation to provide any other explicit or implicit support to the securitization trusts.
- (4) As of September 30, 2023 and December 31, 2022, our equity at risk included bonds with a fair value of \$257.6 million and \$215.1 million, respectively, held in order to comply with Risk Retention Rules. We are generally required to hold the Required Credit Risk until the later of (i) the fifth anniversary of the securitization closing date and (ii) the date on which the aggregate unpaid principal balance of the mortgage loans has been reduced to 25% of the aggregate unpaid principal balance of the mortgage loans as of the securitization closing date, but no longer than the seventh anniversary of the closing date.
- (5) As of September 30, 2023 and December 31, 2022, a portion of our equity at risk included bonds exposed to the first loss of the securitization with a fair value of \$87.5 million and \$84.7 million, respectively.
- (6) Excludes net other asset/(liabilities) held within the VIEs of \$7.2 million and \$4.4 million as of September 30, 2023 and December 31, 2022, respectively.
- (7) As the sponsor and depositor of each securitization, we may purchase all of the outstanding Certificates (an "Optional Redemption") following the earlier of (1) an applicable anniversary date (typically two or three years) of the respective securitization or (2) the date at which the unpaid principal balance of the applicable collateral has declined below a certain percentage (typically 10% to 30%) of the principal balance originally contributed to the securitization. As of September 30, 2023, there was one securitization with an unpaid principal balance of \$125.7 million that met the criteria for an Optional Redemption. As of December 31, 2022, there were no securitizations which met the criteria for an Optional Redemption.

Non-Agency RMBS

The following table presents the fair value of our Non-Agency RMBS by credit rating as of September 30, 2023 and December 31, 2022 (in thousands).

Agency RMBS

Although our investment activities primarily include acquiring and securitizing newly-originated residential mortgage loans, from time to time we invest excess liquidity into Agency RMBS. The following table presents the fair value and the Constant Prepayment Rate ("CPR") experienced on our Agency RMBS portfolio for the periods presented (\$ in thousands).

(1) Represents the weighted average monthly CPRs published during the period for our in-place portfolio.

Financing activities

We use leverage to finance the purchase of our investment portfolio. Our leverage has primarily been in the form of repurchase agreements and similar financing arrangements (which we refer to collectively as financing arrangements), and securitized debt.

Repurchase agreements involve the sale and a simultaneous agreement to repurchase the transferred assets or similar assets at a future date. The amount borrowed generally is equal to the fair value of the assets pledged less an agreed-upon discount, referred to as a "haircut." The size of the haircut reflects the perceived risk associated with the pledged asset. Haircuts may change as our financing arrangements mature or roll and are sensitive to governmental regulations. Interest rates for our financing arrangements are determined based on prevailing rates (typically a spread over a base rate) corresponding to the terms of the borrowings, and interest is paid on a monthly basis or, for shorter term arrangements, at the end of the term. Repurchase agreements typically have a term of up to one year for loans and a term of 30 to 90 days for securities. Repurchase agreements are generally mark-to-market with respect to margin calls and recourse to us. We had outstanding financing arrangements with six counterparties as of September 30, 2023 and December 31, 2022.

Our financing arrangements generally include customary representations, warranties, and covenants, but may also contain more restrictive supplemental terms and conditions. Although specific to each financing arrangement, typical supplemental terms include requirements of minimum equity and liquidity, leverage ratios, and performance triggers. In addition, some of the financing arrangements contain cross default features, whereby default under an agreement with one lender simultaneously causes default under agreements with other lenders. To the extent that we fail to comply with the covenants contained in these financing arrangements or is otherwise found to be in default under the terms of such agreements, the counterparty has the right to accelerate amounts due under the associated agreement. As of September 30, 2023, we are in compliance with all of our financial covenants.

We also use securitized debt to finance our loan portfolio. Securitized debt is generally non-mark-to-market with respect to margin calls and non-recourse to us.

Recourse and non-recourse financing

The below table provides detail on the breakout between recourse and non-recourse financing as of September 30, 2023 and December 31, 2022 (in thousands).

Total Financing: GAAP Basis	\$ 4,397,428	\$ 3,883,539

Leverage

We use leverage to increase potential returns to our stockholders and to fund the acquisition of our investment portfolio. Our financing strategy is designed to increase the size of our investment portfolio by borrowing against the fair value of the assets in our portfolio. When acquiring residential mortgage loans and other assets, we finance our investments using repurchase agreements or similar financing arrangements, which we refer to collectively as "financing arrangements." Upon accumulating a targeted amount of residential mortgage loans, we finance these assets utilizing long-term, non-recourse, non-mark-to-market securitizations as market conditions permit. Financing arrangements are generally recourse to the Company whereas securitized debt used to finance our Non-Agency VIEs and RPL/NPL VIEs is generally non-recourse to the Company. In addition to disclosing GAAP leverage, we also disclose Economic Leverage, which excludes non-recourse financing. Management believes that this non-GAAP measure, when considered with our GAAP financial statements, provides supplemental information useful for investors to help evaluate our use of leverage and the related risk associated with our leverage profile. Our presentation of Economic Leverage may not be comparable to similarly-titled measures of other companies, who may use different calculations. This non-GAAP measure should not be considered a substitute for, or superior to, GAAP leverage calculated in accordance with GAAP. Our GAAP financial results and the reconciliations from these results should be carefully evaluated.

We define GAAP leverage as the sum of (1) GAAP Securitized debt, at fair value, (2) our GAAP Financing arrangements, net of any restricted cash posted on such financing arrangements, and (3) the amount payable on purchases that have not yet settled less the financing remaining on sales that have not yet settled. We define Economic Leverage, a non-GAAP metric, as the sum of: (i) our GAAP leverage, exclusive of any fully non-recourse financing arrangements, (ii) financing arrangements held through affiliated entities, net of any restricted cash posted on such financing arrangements, exclusive of any financing utilized through AG Arc, any adjustment related to unsettled trades as described in (2) in the previous sentence, and any non-recourse financing arrangements and (iii) our net TBA position (at cost), if any.

The calculations in the tables below divide GAAP leverage and Economic Leverage by our GAAP stockholders' equity to derive our leverage ratios. The following tables present a reconciliation of our Economic Leverage ratio to GAAP Leverage (\$ in thousands).

Hedging activities

Subject to maintaining our qualification as a REIT and our Investment Company Act exemption, to the extent leverage is deployed, we may utilize derivative instruments in an effort to hedge the interest rate risk associated with the financing of our portfolio. Specifically, we may seek to hedge our exposure to potential interest rate mismatches between the interest we earn on

our investments and our borrowing costs caused by fluctuations in short-term interest rates. We may utilize interest rate swaps, swaption agreements, and other financial instruments such as short positions in to-be-announced securities. In utilizing leverage and interest rate derivatives, our objectives are to improve risk-adjusted returns and, where possible, to lock in, on a long-term basis, a spread between the yield on our assets and the costs of our financing and hedging. Derivatives have not been designated as hedging instruments for GAAP. See Note 7 in the "Notes to Consolidated Financial Statements (unaudited)" for more information.

Dividends

Federal income tax law generally requires that a REIT distribute annually at least 90% of its REIT ordinary taxable income, without regard to the deduction for dividends paid and excluding net capital gains and that it pay tax at regular corporate rates to the extent that it annually distributes less than 100% of its net taxable income. Before we pay any dividend, whether for U.S. federal income tax purposes or otherwise, we must first meet both our operating requirements and debt service on our financing arrangements and other debt payable. If our cash available for distribution is less than our net taxable income, we could be required to sell assets or borrow funds to make required cash distributions or we may make a portion of the required distribution in the form of a taxable stock distribution or distribution of debt securities.

As described above, our distribution requirements are based on taxable income rather than GAAP net income. Differences between taxable income and GAAP net income include (i) unrealized gains and losses associated with investment and derivative portfolios which are marked-to-market in current income for GAAP purposes, but excluded from taxable income until realized or settled, (ii) temporary differences related to amortization of premiums and discounts paid on investments, (iii) the timing and amount of deductions related to stock-based compensation, (iv) temporary differences related to the recognition of realized gains and losses on sold investments and certain terminated derivatives, (v) taxes, (vi) methods of depreciation and (vii) differences between GAAP income or losses in our TRSs' and taxable income resulting from dividend distributions to the REIT from our TRSs'. Undistributed taxable income is based on current estimates and is not finalized until we file our annual tax return for that tax year, typically in October of the following year. We did not have any undistributed taxable income as of September 30, 2023.

We announced that on October 24, 2023, our Board of Directors declared an interim fourth quarter 2023 common stock dividend on our common stock of \$0.08 per share, made pursuant to the terms of the Merger Agreement in connection with the Merger with WMC. The dividend was paid on November 8, 2023 to stockholders of record as of November 3, 2023.

The following tables detail the dividends declared and paid on our 8.25% Series A Cumulative Redeemable Preferred Stock ("Series A Preferred Stock"), 8.00% Series B Cumulative Redeemable Preferred Stock ("Series B Preferred Stock"), and 8.000% Series C Fixed-to-Floating Rate Cumulative Redeemable Preferred Stock ("Series C Preferred Stock") (collectively, "preferred stock") during the nine months ended September 30, 2023 and 2022.

We announced that on November 3, 2023, our Board of Directors declared fourth quarter 2023 preferred stock dividends on our Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock in the amount of \$0.51563, \$0.50 and \$0.50 per share, respectively. The dividends will be paid on December 18, 2023 to holders of record on November 30, 2023.

Liquidity and capital resources

Our liquidity determines our ability to meet our cash obligations, including distributions to our stockholders, payment of our expenses, financing our investments and satisfying other general business needs.

Our principal sources of cash consist of borrowings under financing arrangements, principal and interest payments we receive on our investment portfolio, cash generated from our operating results, and proceeds from capital market transactions. We typically use cash to repay principal and interest on our financing arrangements, to purchase loans, real estate securities, and other real estate related assets, to make dividend payments on our capital stock, to repurchase our capital stock, and to fund our operations. We may also generate liquidity when restricted cash that was pledged as collateral for clearing and executing trades, derivatives, and financing arrangements becomes unrestricted when the related collateral requirements are exceeded or at the maturity of the derivative or financing arrangement. Refer to "—Margin requirements" below discussing instances where we may use liquidity to meet margin requirements. At September 30, 2023, we had \$118.7 million of liquidity, all of which was cash and cash equivalents. Refer to the "Contractual obligations" section of this Item 2 for additional obligations that could impact our liquidity.

Margin requirements

The fair value of our loans and real estate securities fluctuate according to market conditions. When the fair value of the assets pledged as collateral to secure a financing arrangement decreases to the point where the difference between the collateral fair value and the financing arrangement amount is less than the haircut, our lenders may issue a "margin call," which requires us to post additional collateral to the lender in the form of additional assets or cash. Under our repurchase facilities, our lenders have full discretion to determine the fair value of the securities we pledge to them. Our lenders typically value assets based on recent transactions in the market. Lenders also issue margin calls as the published current principal balance factors change on the pool of mortgages underlying the securities pledged as collateral when scheduled and unscheduled paydowns are announced monthly. We experience margin calls in the ordinary course of our business. In seeking to effectively manage the margin requirements established by our lenders, we maintain a position of cash and, when owned, unpledged Agency RMBS. We refer to this position as our "liquidity." The level of liquidity we have available to meet margin calls is directly affected by our leverage levels, our haircuts and the price changes on our assets. Typically, if interest rates increase or if credit spreads widen, then the prices of our collateral (and our unpledged assets that constitute our liquidity) will decline, we will experience margin calls, and we will need to use our liquidity to meet the margin calls. There can be no assurance that we will maintain sufficient levels of liquidity to meet any margin calls. If our haircuts increase, our liquidity will proportionately decrease. In addition, if we increase our borrowings, our liquidity will decrease by the amount of additional haircut on the increased level of

indebtedness. We intend to maintain a level of liquidity in relation to our assets that enables us to meet reasonably anticipated margin calls but that also allows us to be substantially invested in the residential mortgage market. We may misjudge the appropriate amount of our liquidity by maintaining excessive liquidity, which would lower our investment returns, or by maintaining insufficient liquidity, which may force us to liquidate assets into potentially unfavorable market conditions and harm our results of operations and financial condition. Further, an unexpected rise in interest rates and a corresponding fall in the fair value of our securities may also force us to liquidate assets under difficult market conditions, thereby harming our results of operations and financial condition, in an effort to maintain sufficient liquidity to meet increased margin calls.

Similar to the margin calls that we receive on our borrowing agreements, we may also receive margin calls on our derivative instruments when their fair value declines. This typically occurs when prevailing market rates change adversely, with the severity of the change also dependent on the terms of the derivatives involved. We may also receive margin calls on our derivatives based on the implied volatility of interest rates. Our posting of collateral with our counterparties can be done in cash or assets, and is generally bilateral, which means that if the fair value of our interest rate hedges increases, our counterparty will be required to post collateral with us. Refer to the "Liquidity risk – derivatives" section of Item 3 below for a further discussion on margin.

Cash flows

The below details changes to our cash, cash equivalents, and restricted cash for the nine months ended September 30, 2023 and 2022 (\$ in thousands).

	Nine Months Ended		Change
	September 30, 2023	September 30, 2022

Cash and cash equivalents and restricted cash, End of Period	\$ 139,262	\$ 99,436	\$ 39,826

- (1) Cash provided by operating activities is primarily attributable to net interest income less operating expenses for the nine months ended September 30, 2023.
- (2) Cash used in investing activities for the nine months ended September 30, 2023 was primarily attributable to purchases of investments, offset by sales of investments and principal repayments on investments.
- (3) Cash provided by financing activities for the nine months ended September 30, 2023 was primarily attributable to the issuance of securitized debt, offset by principal repayments on securitized debt, net repayments of repurchase agreements, dividend payments, and common share repurchases.

Stock repurchase programs

On November 3, 2015, our Board of Directors authorized a stock repurchase program (the "2015 Repurchase Program") to repurchase up to \$25.0 million of our outstanding common stock. As of June 30, 2022, the \$25.0 million maximum repurchase amount authorized under the 2015 Repurchase Program was fully utilized.

On August 3, 2022, our Board of Directors authorized a stock repurchase program (the "2022 Repurchase Program") to repurchase up to \$15.0 million of our outstanding common stock on substantially the same terms as the 2015 Repurchase Program. The 2022 Repurchase Program does not have an expiration date and permits us to repurchase our shares through various methods, including open market repurchases, privately negotiated block transactions and Rule 10b5-1 plans. We may repurchase shares of our common stock from time to time in compliance with SEC regulations and other legal requirements. The extent to which we repurchase our shares, and the timing, manner, price, and amount of any such repurchases, will depend upon a variety of factors including market conditions and other corporate considerations as determined by management, as well as the limits of the 2022 Repurchase Program and our liquidity and business strategy. The 2022 Repurchase Program does not obligate us to acquire any particular amount of shares and may be modified or discontinued at any time. As of the date of this filing, approximately \$1.5 million of common stock remained authorized for future share repurchases under the 2022

Repurchase Program. See Note 11 in the "Notes to Consolidated Financial Statements (unaudited)" for additional details on the shares repurchased under the 2022 Repurchase Program during the three and nine months ended September 30, 2023.

On May 4, 2023, our Board of Directors authorized a stock repurchase program (the "2023 Repurchase Program") to repurchase up to \$15.0 million of our outstanding common stock on substantially the same terms as the 2022 Repurchase Program. As of the date of this filing, the full \$15.0 million authorized amount remains available for repurchase under the 2023 Repurchase Program. This authorization is in addition to the amount remaining under the 2022 Repurchase Program.

On February 22, 2021, our Board of Directors authorized a stock repurchase program (the "Preferred Repurchase Program") pursuant to which our Board of Directors granted a repurchase authorization to acquire shares of our Series A Preferred Stock, Series B Preferred Stock, and Series C Preferred Stock having an aggregate value of up to \$20.0 million. No share repurchases under the Preferred Repurchase Program have been made since its authorization.

Shares of stock repurchased by us under any repurchase program, if any, will be cancelled and, until reissued by us, will be deemed to be authorized but unissued shares of its stock as required by Maryland law. The cost of the acquisition by us of shares of our own stock in excess of the aggregate par value of the shares first reduces additional paid-in capital, to the extent available, with any residual cost applied against retained earnings.

Equity distribution agreements

On May 5, 2017, we entered into an equity distribution agreement with each of Credit Suisse Securities (USA) LLC and JMP Securities LLC (collectively, the "Sales Agents"), which we refer to as the "Equity Distribution Agreements," pursuant to which we may sell up to \$100.0 million aggregate offering price of shares of our common stock from time to time through the Sales Agents, under the Securities Act of 1933. We did not issue any shares of common stock under the Equity Distribution Agreements during the three and nine months ended September 30, 2023. Since inception of the program, we have issued approximately 2.2 million shares of common stock under the Equity Distribution Agreements for gross proceeds of \$48.3 million.

Forward-looking statements regarding liquidity

Based upon our current portfolio, leverage and available borrowing arrangements, we believe the net proceeds of our common equity offerings, preferred equity offerings, and private placements, combined with cash flow from operating activities, financing activities, and our available borrowing capacity will be sufficient to enable us to meet our anticipated liquidity requirements, including funding our investment activities, paying fees under our management agreement, funding our distributions to stockholders and paying general corporate expenses.

Contractual obligations

Management agreement

The management agreement, as amended, provides for payment to the Manager of a management fee, an incentive fee, and reimbursements of certain expenses incurred by the Manager or its affiliates on behalf of us. Pursuant to our management agreement, the closing of the TPG Transaction resulted in an assignment of the management agreement. Our independent directors unanimously consented to such assignment on July 31, 2023 in advance of the TPG Transaction closing. There were no changes to the management agreement in connection with the TPG Transaction and the assignment of the management agreement became effective upon the closing of the TPG Transaction.

In connection with the pending Merger with WMC, we and our Manager entered into the MITT Management Agreement Amendment, pursuant to which (i) the base management fee will be reduced by \$0.6 million for the first four quarters (i.e., resulting in an aggregate \$2.4 million waiver of base management fees) following the Effective Time, beginning with the fiscal quarter in which the Effective Time occurs, and (ii) our Manager will waive its right to seek reimbursement from us for any expenses otherwise reimbursable by us under the management agreement in an amount equal to the excess, if any, of \$7.0 million over the aggregate cash portion of the Per Share Merger Consideration paid by our Manager to the holders of WMC common stock in the Merger. The MITT Management Agreement Amendment will become effective automatically upon the closing of the Merger, and will have no force and effect if the Merger does not close.

Management fee

The management fee is calculated and payable quarterly in arrears in an amount equal to 1.50% of our Stockholders' Equity, per annum. For purposes of calculating the management fee, "Stockholders' Equity" means the sum of the net proceeds from any issuances of equity securities (including preferred securities) since inception (allocated on a pro rata daily basis for such issuances during the fiscal quarter of any such issuance, and excluding any future equity issuance to the Manager), plus our retained earnings at the end of such quarter (without taking into account any non-cash equity compensation expense or other non-cash items described below incurred in current or prior periods), less any amount that we pay for repurchases of our common stock, excluding any unrealized gains, losses or other non-cash items that have impacted stockholders' equity as reported in our financial statements prepared in accordance with GAAP, regardless of whether such items are included in other comprehensive income or loss, or in net income, and excluding one-time events pursuant to changes in GAAP, and certain other non-cash charges after discussions between the Manager and our independent directors and after approval by a majority of our independent directors. Stockholders' Equity, for purposes of calculating the management fee, could be greater or less than the amount of stockholders' equity shown on our financial statements. The below table details the management fees incurred during the three and nine months ended September 30, 2023 and 2022 (in thousands).

Consolidated statements of operations line item:	Three Months Ended		Nine Months Ended	
	September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022
Management fee to affiliate	\$ 2,054	\$ 2,064	\$ 6,190	\$ 5,984

As of September 30, 2023 and December 31, 2022, we have recorded management fees payable of \$2.1 million and \$2.1 million, respectively. The management fee payable is included within the "Due to affiliates" item within the "Other liabilities" line item on the consolidated balance sheets.

Incentive fee

The Manager is entitled to an annual incentive fee with respect to each applicable fiscal year, which will be equal to 15% of the amount by which our cumulative adjusted net income from November 22, 2021 exceeds the cumulative hurdle amount, which represents an 8% return (cumulative, but not compounding) on an equity hurdle base consisting of the sum of (i) \$341.5 million and (ii) the gross proceeds of any subsequent public or private common stock offerings by us. The annual incentive fee will be payable in cash, or, at the option of our Board of Directors, shares of common stock or a combination of cash and shares.

The Manager waived the annual incentive fee with respect to the fiscal years ending December 31, 2021 and December 31, 2022, and the annual incentive fee will first be payable with respect to the fiscal year ending December 31, 2023. During the three and nine months ended September 30, 2023, we did not incur any incentive fee expense.

Expense Reimbursement

Our Manager uses the proceeds from its management fee in part to pay compensation to its officers and personnel, who, notwithstanding that certain of them also are our officers, receive no compensation directly from us. We are required to reimburse our Manager or its affiliates for operating expenses incurred by our Manager or its affiliates on our behalf, including certain salary expenses and other expenses relating to legal, accounting, due diligence and other services. Our reimbursement obligation is not subject to any dollar limitation; however, reimbursements are subject to an annual budget process which combines guidelines from the Management Agreement with oversight by our Board of Directors and discussions with our Manager.

The below table details the expense reimbursement incurred during the three and nine months ended September 30, 2023 and 2022 (in thousands).

Consolidated statements of operations line item:	Three Months Ended		Nine Months Ended	
	September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022
Non-investment related expenses	\$ 1,400	\$ 1,405	\$ 4,200	\$ 4,215
Investment related expenses	148	261	360	637
Transaction related expenses	326	738	707	2,484
Expense reimbursements to Manager or its affiliates	\$ 1,874	\$ 2,404	\$ 5,267	\$ 7,336

As of September 30, 2023 and December 31, 2022, we recorded a reimbursement payable to our Manager or its affiliates of \$2.3 million and \$1.3 million, respectively. The reimbursement payable to the Manager or its affiliates is included within the "Due to affiliates" item within the "Other liabilities" line item on the consolidated balance sheets.

Share-based compensation

The AG Mortgage Investment Trust, Inc. 2020 Equity Incentive Plan, which became effective on April 15, 2020 following the approval of our stockholders at our 2020 annual meeting of stockholders, provides for a maximum of 666,666 shares of common stock that may be issued under the plan. The maximum number of shares of common stock granted during a single fiscal year to any non-employee director, taken together with any cash fees paid to such non-employee director during any fiscal year, shall not exceed \$300,000 in total value (calculating the value of any such awards based on the grant date fair value). As of September 30, 2023, 505,933 shares of common stock were available to be awarded under the 2020 Equity Incentive Plan.

Since inception of the 2020 Equity Incentive Plan and through September 30, 2023, we have granted an aggregate of 160,733 shares of restricted common stock to our independent directors under our 2020 Equity Incentive Plan, all of which have vested.

The AG Mortgage Investment Trust, Inc. 2021 Manager Equity Incentive Plan (the "2021 Manager Plan"), which became effective on April 7, 2021 following the approval of our stockholders at our 2021 annual meeting of stockholders, provides for a maximum of 573,425 shares of common stock that may be subject to awards thereunder to our Manager. As of September 30, 2023, there were no shares or awards issued under the 2021 Manager Plan. Following the execution of the Third Amendment to our management agreement in November 2021 related to the incentive fee, our compensation committee no longer expects to continue its historical practice of making periodic equity grants to the Manager pursuant to the 2021 Manager Equity Incentive Plan.

Unfunded commitments

See Note 12 of the "Notes to Consolidated Financial Statements (unaudited)" for detail on our commitments as of September 30, 2023.

Off-balance sheet arrangements

Our investments in debt and equity of affiliates primarily consist of real estate securities and our interest in AG Arc. Investments in debt and equity of affiliates are accounted for using the equity method of accounting. Certain of our investments in debt and equity of affiliates securitize residential mortgage loans and retain interests in the subordinated tranches of the transferred assets. These retained interests are included in the MATT Non-QM Securities and Re/Non-Performing Securities line items of our investment portfolio. See Note 10 to the "Notes to Consolidated Financial Statements (unaudited)" for a discussion of investments in debt and equity of affiliates.

We record TBA purchases and sales on the trade date and present the purchase or receipt net of the corresponding payable or receivable until the settlement date of the transaction. Refer to Note 7 to the "Notes to Consolidated Financial Statements (unaudited)" for additional detail on TBAs as of September 30, 2023, if applicable.

For additional information on our commitments as of September 30, 2023, refer to Note 12 of the "Notes to Consolidated Financial Statements (unaudited)." We do not expect these commitments, taken as a whole, to be significant to, or to have a material impact on, our overall liquidity or capital resources or our operations.

Critical accounting policies and estimates

We prepare our consolidated financial statements in conformity with GAAP, which requires the use of estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. These estimates are based, in part, on our judgment and assumptions regarding various economic conditions that we believe are reasonable based on facts and circumstances existing at the time of reporting. We believe that the estimates, judgments and assumptions utilized in the preparation of our consolidated financial statements are prudent and reasonable. Although our estimates contemplate conditions as of September 30, 2023 and how we expect them to change in the future, it is reasonably possible that actual conditions could be different than anticipated in arriving at those estimates, which could materially affect reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the periods presented.

Our most critical accounting policies include (i) Valuation of financial instruments, (ii) Accounting for loans, (iii) Accounting for real estate securities, (iv) Interest income recognition, (v) Financing arrangements, and (vi) Investment consolidation. Our critical accounting estimates are those which require assumptions to be made about matters that are highly uncertain and include (i), (iv), and (vi) above. A discussion of critical accounting policies and estimates is included in our Form 10-K. Our critical accounting policies and estimates have not materially changed since December 31, 2022.

REIT Qualification

We have elected to be treated as a REIT under Sections 856 through 859 of the Internal Revenue Code of 1986, as amended (the "Code"). Our qualification as a REIT depends upon our ability to meet on a continuing basis, through actual investment and operating results, various complex requirements under the Code relating to, among other things, the sources of our gross income, the composition and values of our assets, our distribution levels and the diversity of ownership of our shares. We believe that we are organized in conformity with the requirements for qualification and taxation as a REIT under the Code, and that our manner of operation enables us to meet the requirements for qualification and taxation as a REIT.

We generally need to distribute at least 90% of our ordinary taxable income each year (subject to certain adjustments) to our stockholders in order to qualify as a REIT under the Code. Our ability to make distributions to our stockholders depends, in part, upon the performance of our investment portfolio.

As a REIT, we generally are not subject to U.S. federal income tax on our REIT taxable income that we distribute currently to our stockholders. If we fail to qualify as a REIT in any taxable year and do not qualify for certain statutory relief provisions, we will be subject to U.S. federal income tax at regular corporate rates and may be precluded from qualifying as a REIT for the subsequent four taxable years following the year during which we lost our REIT qualification. Accordingly, our failure to qualify as a REIT could have a material adverse impact on our results of operations and our ability to pay distributions, if any, to our stockholders. Even if we qualify for taxation as a REIT, we may be subject to some U.S. federal, state and local taxes on our income or property. In addition, any income earned by a domestic taxable REIT subsidiary, or TRS, will be subject to corporate income taxation.

Investment Company Act Exemption

We conduct our operations so that we are not considered an investment company under Section 3(a)(1)(C) of the Investment Company Act. Under Section 3(a)(1)(C) of the Investment Company Act, a company is deemed to be an investment company if it is engaged, or proposes to engage, in the business of investing, reinvesting, owning, holding or trading in securities and owns or proposes to acquire "investment securities" having a value exceeding 40% of the value of its total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis (the "40% test"). "Investment securities" do not include, among other things, U.S. government securities and securities issued by majority-owned subsidiaries that (i) are not investment companies and (ii) are not relying on the exceptions from the definition of investment company provided by Section 3(c)(1) or 3(c)(7) of the Investment Company Act.

Conducting our operations so as not to be considered an investment company under the Investment Company Act and the rules and regulations promulgated under the Investment Company Act and SEC staff interpretive guidance limits our ability to make certain investments. For example, these restrictions limit our and our subsidiaries' ability to invest directly in Agency RMBS mortgage-related securities that represent less than the entire ownership in a pool of mortgage loans or debt and equity tranches of Non-Agency RMBS (in each case to the extent such interest are not retained interest in securitizations consisting of mortgage loans that were owned by us and such securitizations were not sponsored by us in order to obtain financing to acquire additional mortgage loans), certain real estate companies and assets not related to real estate.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The primary components of our market risk relate to interest rates, liquidity, real estate, credit, prepayment rates, basis, and capital markets risk. While we do not seek to avoid risk completely, we seek to assume risk that can be reasonably quantified from historical experience and to actively manage that risk, to earn sufficient returns to justify taking those risks and to maintain capital levels consistent with the risks we undertake. Many of these risks have become particularly heightened due to sustained inflation, rising mortgage rates, the Federal Reserve's monetary policy actions, and market uncertainty from geopolitical risks.

Interest rate risk

Interest rate risk is highly sensitive to many factors, including governmental monetary, fiscal and tax policies, domestic and international economic and political considerations and other factors beyond our control. We are subject to interest rate risk in connection with both our investments and the financing under our financing arrangements. We generally seek to manage this risk by monitoring the reset index and the interest rate related to our investment portfolio and our financings; by structuring our financing arrangements to have a range of maturity terms, amortizations and interest rate adjustment periods; and by using derivative instruments to adjust interest rate sensitivity of our investment portfolio and borrowings. Our hedging techniques can be highly complex, and the value of our investment portfolio and derivatives may be adversely affected as a result of changing interest rates.

Interest rate effects on net interest income

Our operating results depend in large part upon differences between the yields earned on our investments and our cost of borrowing and upon the effectiveness of our interest rate hedging activities. The majority of our financing arrangements are short term in nature, exclusive of our residential mortgage loans financed through securitized debt. Repurchase agreements financing our securities portfolio or retained interests from our securitizations typically have an initial term between 30 and 90 days while repurchase agreements financing our residential mortgage loans prior to securitization have an initial term of one year. The financing rate on these agreements will generally be determined at the outset of each transaction by reference to prevailing rates plus a spread. As a result, our borrowing costs will tend to increase during periods of rising interest rates as we renew, or "roll", maturing transactions at the higher prevailing rates. When combined with the fact that the income we earn on our fixed interest rate investments will remain substantially unchanged, this will result in a narrowing of the net interest spread between the related assets and borrowings and may even result in losses.

In an attempt to offset the increase in funding costs related to rising interest rates, our Manager may cause us to enter into hedging transactions structured to provide us with positive cash flow in the event interest rates rise. Our Manager accomplishes this through the use of interest rate derivatives. Some hedging strategies involving the use of derivatives are highly complex, may produce volatile returns and may expose us to increased risks relating to counterparty defaults.

Interest rate effects on fair value

Another component of interest rate risk is the effect that changes in interest rates will have on the fair value of the assets that we acquire.

Generally, in a rising interest rate environment, the fair value of our loan and real estate securities portfolios would be expected to decrease, all other factors being held constant. In particular, the portion of our real estate securities and loan portfolios with fixed-rate coupons would be expected to decrease in value more severely than that portion with a floating-rate coupon. This is because fixed-rate coupon assets tend to have significantly more duration, or price sensitivity to changes in interest rates, than floating-rate coupon assets. Fixed-rate assets currently represent a majority of our portfolio.

The fair value of our investment portfolio could change at a different rate than the fair value of our liabilities when interest rates change. We measure the sensitivity of our portfolio to changes in interest rates by estimating the duration of our assets and liabilities. Duration is the approximate percentage change in fair value for an instantaneous 100 basis point parallel shift in the yield curve while assuming all other market risk factors remain constant. In general, our assets have higher duration than our liabilities. In order to reduce this exposure, we use hedging instruments to reduce the gap in duration between our assets and liabilities.

We calculate estimated effective duration (i.e., the price sensitivity to changes in risk-free interest rates) to measure the impact of changes in interest rates on our portfolio value. We estimate duration based on third-party models. Different models and methodologies can produce different effective duration estimates for the same assets. We allocate the net duration by asset type based on the interest rate sensitivity.

The following chart details information about our duration gap as of September 30, 2023.

Duration (1)(2)	Years
Agency RMBS	0.29
Hedges on Agency RMBS	(0.29)
Agency RMBS subtotal	—
Securitized Residential Mortgage Loans and Non-Agency RMBS	4.66
Hedges on securitized products	(0.54)
Securitized product subtotal	4.12
Residential Mortgage Loans (3)	0.98
Hedges on Residential Mortgage Loans	(0.80)
Residential Mortgage Loans subtotal	0.18
Total	4.30

(1) Duration related to financing arrangements is netted within its respective line items.

(2) Duration does not include our investment in AG Arc LLC.

(3) Residential Mortgage Loans are inclusive of forward purchase commitments to acquire Non-Agency Loans and Agency-Eligible Loans as of September 30, 2023.

The following table quantifies the estimated percent change in GAAP equity, the fair value of our assets, and projected net interest income should interest rates go up or down instantaneously by 25, 50, and 75 basis points, assuming (i) the yield curves of the rate shocks will be parallel to each other and the current yield curve and (ii) all other market risk factors remain constant. These estimates were compiled using a combination of third-party services and models, market data and internal models. All changes in equity, assets, and income are measured as percentage changes from the GAAP equity, assets, and projected net interest income from our base interest rate scenario. The base interest rate scenario assumes spot and forward interest rates existing as of September 30, 2023. Actual results could differ materially from these estimates.

Agency RMBS and Agency-Eligible Loan assumptions attempt to predict default and prepayment activity at projected interest rate levels. To the extent that these estimates or other assumptions do not hold true, actual results will likely differ materially from projections and could result in percentage changes larger or smaller than the estimates in the table below. Moreover, if different models were employed in the analysis, materially different projections could result. In addition, while the table below reflects the estimated impact of interest rate increases and decreases on a static portfolio as of September 30, 2023, our Manager may from time to time sell any of our investments as a part of the overall management of our investment portfolio.

Change in Interest Rates (basis points) (1)(2)	Change in Fair Value as a Percentage of GAAP Equity (3)	Change in Fair Value as a Percentage of Assets (3)	Percentage Change in Projected Net Interest Income (4)
75	(6.9)%	(0.6)%	(0.7)%
50	(4.6)%	(0.4)%	(0.5)%
25	(2.3)%	(0.2)%	(0.2)%
(25)	2.4 %	0.2 %	0.2 %
(50)	4.7 %	0.4 %	0.5 %
(75)	7.2 %	0.7 %	0.7 %

(1) Includes investments held through affiliated entities that are reported as "Investments in debt and equity of affiliates" on our consolidated balance sheet, but excludes AG Arc.

(2) Does not include cash investments, which typically have overnight maturities and are not expected to change in value as interest rates change.

(3) Changes in fair value as a percentage of GAAP equity and assets are inclusive of forward purchase commitments to acquire Non-Agency Loans and Agency-Eligible Loans as of September 30, 2023.

(4) Interest income includes trades settled as of September 30, 2023.

The information set forth in the interest rate sensitivity table above and all related disclosures constitute forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Actual results could differ significantly from those estimated in the foregoing interest rate sensitivity table. See below for additional risks which may impact the fair value of our assets, GAAP equity and net income.

Liquidity risk

Our primary liquidity risk arises from financing long-maturity assets with shorter-term financings primarily in the form of financing arrangements. Our Manager seeks to mitigate our liquidity risks by maintaining a prudent level of leverage, monitoring our liquidity position on a daily basis and maintaining a reasonable cushion of cash and unpledged real estate securities and loans in our portfolio in order to meet future margin calls. In addition, our Manager seeks to further mitigate our liquidity risk by (i) maintaining relationships with a carefully selected group of financing counterparties and (ii) monitoring the ongoing financial stability and future business plans of our financing counterparties.

Liquidity risk – financing arrangements

We pledge mortgage loans or real estate securities and cash as collateral to secure our financing arrangements. Should the fair value of our mortgage loans or real estate securities pledged as collateral decrease (as a result of rising interest rates, changes in prepayment speeds, widening of credit spreads or otherwise), we will likely be subject to margin calls for additional collateral from our financing counterparties. Should the fair value of our mortgage loans or real estate securities decrease materially and suddenly, margin calls will likely increase causing an adverse change to our liquidity position which could result in substantial losses. In addition, we cannot be assured that we will always be able to roll our financing arrangements at their scheduled maturities, which could cause material additional harm to our liquidity position and result in substantial losses. Further, should funding conditions tighten as they did in 2007-2008, 2009 and more recently in March 2020, our financing arrangement counterparties may increase our margin requirements on new financings, including repurchase transactions that we roll at maturity with the same counterparty. This would require us to post additional collateral and would reduce our ability to use leverage and could potentially cause us to incur substantial losses.

Liquidity risk – derivatives

The terms of our interest rate swaps require us to post collateral in the form of cash or Agency RMBS to our counterparties to satisfy two types of margin requirements: variation margin and initial margin.

We and our swap counterparties are both required to post variation margin to each other depending upon the daily moves in prevailing benchmark interest rates. The amount of this variation margin is derived from the mark to market valuation of our swaps. Hence, as our swaps lose value in a falling interest rate environment, we are required to post additional variation margin to our counterparties on a daily basis; conversely, as our swaps gain value in a rising interest rate environment, we are able to recall variation margin from our counterparties. By recalling variation margin from our swaps counterparties, we are able to partially mitigate the liquidity risk created by margin calls on our repurchase transactions during periods of rising interest rates.

Initial margin works differently. Collateral posted to meet initial margin requirements is intended to create a safety buffer to benefit our counterparties if we were to default on our payment obligations under the terms of the swaps and our counterparties were forced to unwind the swap. Initial margin on our centrally cleared trades varies from day to day depending upon various factors, including the absolute level of interest rates and the implied volatility of interest rates. There is a distinctly positive correlation between initial margin, on the one hand, and the absolute level of interest rates and implied volatility of interest rates, on the other hand. As a result, in times of rising interest rates or increasing rate volatility, we anticipate that the initial margin required on our centrally-cleared trades will likewise increase, potentially by a substantial amount. These margin increases will have a negative impact on our liquidity position and will likely impair the intended liquidity risk mitigation effect of our swaps discussed above.

Real estate value risk

Residential property values are subject to volatility and may be affected adversely by a number of factors outside of our control, including, but not limited to, national, regional and local economic conditions (which may be adversely affected by industry slowdowns and other factors); local real estate conditions (such as an oversupply of housing); natural disasters, the effects of climate change (including flooding, drought, and severe weather) and other natural events; construction quality, age and design; demographic factors; and retroactive changes to building or similar codes. Decreases in property values could cause us to suffer losses and reduce the value of the collateral underlying our investment portfolio as well as the potential sale proceeds available

to repay our loans in the event of a default. In addition, substantial decreases in property values can increase the rate of strategic defaults by residential mortgage borrowers which can impact and create significant uncertainty in the recovery of principal and interest on our investments.

Credit risk

We are exposed to the risk of potential credit losses from an unanticipated increase in borrower defaults as well as general credit spread widening on any non-agency assets in our portfolio. We seek to manage this risk through our Manager's pre-acquisition due diligence process and, if available, through the use of non-recourse financing, which limits our exposure to credit losses to the specific pool of collateral which is the subject of the non-recourse financing. Our Manager's pre-acquisition due diligence process includes the evaluation of, among other things, relative valuation, supply and demand trends, the shape of various yield curves, prepayment rates, delinquency and default rates, recovery of various sectors and vintage of collateral.

The potential effects of sustained inflation, rising mortgage rates, the Federal Reserve's monetary policy actions, and the ongoing COVID-19 pandemic may cause an increase in credit risk of our credit sensitive assets. Any future period of payment deferrals, forbearance, delinquencies, defaults, foreclosures or losses will likely adversely affect our net interest income from residential loans and RMBS investments, the fair value of these assets, our ability to liquidate the collateral that may underlie these investments and obtain additional financing and the future profitability of our investments. Further, in the event of delinquencies, defaults and foreclosure, regulatory changes and policies designed to protect borrowers and renters may slow or prevent us from taking remediation actions.

Prepayment risk

Premiums arise when we acquire real estate assets at a price in excess of the principal balance of the mortgages securing such assets (i.e., par value). Conversely, discounts arise when we acquire assets at a price below the principal balance of the mortgages securing such assets. Premiums paid on our assets are amortized against interest income and accretable purchase discounts on our assets are accreted to interest income. Purchase premiums or discounts on our assets are amortized or accreted over the life of each respective asset using the effective yield method, adjusted for actual prepayment activity. An increase in the prepayment rate, as measured by the CPR, will typically accelerate the amortization of purchase premiums, thereby reducing the yield or interest income earned on such assets. An increase in the prepayment rate will similarly accelerate the accretion of purchase discounts, conversely increasing the yield or interest income earned on such assets. A decrease in the prepayment rate will have a directionally opposite impact on the yield or interest income.

Differences between previously estimated cash flows and current actual and anticipated cash flows caused by changes to prepayment or other assumptions are adjusted retrospectively through a "catch up" adjustment for the impact of the cumulative change in the effective yield through the reporting date for securities accounted for under ASC 320-10 (generally, Agency RMBS) or adjusted prospectively through an adjustment of the yield over the remaining life of the investment for investments accounted for under ASC 325-40 (generally, Non-Agency RMBS and interest-only securities) and mortgage loans accounted for under ASC 310-10.

In addition, our interest rate hedges are structured in part based upon assumed levels of future prepayments within our mortgage loan or real estate securities portfolio. If prepayments are slower or faster than assumed, the life of the real estate securities or mortgage loans will be longer or shorter than assumed, respectively, which could reduce the effectiveness of our Manager's hedging strategies and may cause losses on such transactions.

Our Manager seeks to mitigate our prepayment risk by investing in real estate assets with a variety of prepayment characteristics.

Basis risk

Basis risk refers to the possible decline in book value triggered by the risk of incurring losses on the fair value of Agency RMBS as a result of widening market spreads between the yields on Agency RMBS and the yields on comparable duration Treasury securities. The basis risk associated with fluctuations in fair value of Agency RMBS may relate to factors impacting the mortgage and fixed income markets other than changes in benchmark interest rates, such as actual or anticipated monetary policy actions by the Federal Reserve, market liquidity, or changes in required rates of return on different assets. Consequently, while we use interest rate swaps and other hedges to protect against moves in interest rates, such instruments will generally not protect our net book value against basis risk.

Capital Market Risk

We are exposed to risks related to the equity capital markets, and our related ability to raise capital through the issuance of our common stock, preferred stock or other equity instruments. We are also exposed to risks related to the debt capital markets, and our related ability to finance our business through revolving facilities or other debt instruments. As a REIT, we are required to distribute a significant portion of our taxable income annually, which constrains our ability to accumulate operating cash flow and therefore may require us to utilize debt or equity capital to finance our business. We seek to mitigate these risks by monitoring the debt and equity capital markets to inform our decisions on the amount, timing, and terms of capital we raise.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining disclosure controls and procedures that are designed to ensure that information the Company is required to disclose in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include controls and procedures designed to ensure that the Company's management, including its principal executive officer and principal financial officer, as appropriate, allow for timely decisions regarding required disclosure.

We have evaluated, with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures as of September 30, 2023. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow for timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

No change occurred in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the period covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are at times subject to various legal proceedings and claims arising in the ordinary course of our business. In addition, in the ordinary course of business, we can be and are involved in governmental and regulatory examinations, information gathering requests, investigations and proceedings. As of the date of this report, we are not party to any litigation or legal proceedings, or to our knowledge, any threatened litigation or legal proceedings, which we believe, individually or in the aggregate, would have a material adverse effect on our results of operations or financial condition.

ITEM 1A. RISK FACTORS.

Refer to the risks identified under the caption "Risk Factors", in our Annual Report on Form 10-K for the year ended December 31, 2022, our Quarterly Report on Form 10-Q for the quarter ended June 30, 2023 and our subsequent filings, which are available on the Securities and Exchange Commission's website at www.sec.gov, and in the "Forward-Looking Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections herein.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES

None.

ITEM 5. OTHER INFORMATION.

During the three months ended September 30, 2023, no director or officer of the Company adopted, modified or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

Submission of Matters to a Vote of Security Holders - Results of Special Meeting of Stockholders

On November 7, 2023, the Company held a special meeting of stockholders (the "Special Meeting"). As of September 22, 2023, the record date for the Special Meeting, there were 20,219,246 shares of common stock of the Company entitled to vote at the Special Meeting. A quorum of 10,276,993 shares were represented in person or by proxy at the Special Meeting. The Company's stockholders voted on the below matters which were set forth in the notice for the meeting.

The Common Stock Issuance Proposal was approved and sufficient votes were received to approve the Adjournment Proposal, but such adjournment was not necessary in light of the approval of the Common Stock Issuance Proposal. The vote tabulation for each proposal is as follows:

1. A proposal to approve the issuance of shares of the Company's common stock, par value \$0.01 per share, pursuant to the Agreement and Plan of Merger, dated as of August 8, 2023, as amended or modified from time to time, by and among the Company, Western Asset Mortgage Capital Corporation, a Delaware corporation ("WMC"), AGMIT Merger Sub, LLC, a Delaware limited liability company and wholly owned subsidiary of MITT ("Merger Sub"), and, solely for the limited purposes set forth therein AG REIT Management, LLC, a Delaware limited liability company and the external manager of the Company, pursuant to which WMC will merge with and into Merger Sub, with Merger Sub continuing as the surviving entity of the Merger (the "Common Stock Issuance Proposal").

CERTIFICATION

I, Thomas J. Durkin, certify that:

1. I have reviewed this quarterly report on Form 10-Q of AG Mortgage Investment Trust, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
